EMPLOYERS YIELD, PLASTERERS WIN \$14-A-DAY SCALE

The Men Won Their Strike
"All Right," Says Peter Anderson Jr., Spokesman for Contractors.

PLASTERERS GOT COLD FEET, REST FELL IN LINE

Plasterers Affects About 350
Workers—Plasterers' Hod-
carriers to Get Advance to
\$10 a Day.

Peter Anderson Jr., spokesman for the plasterers' employers group, announced today that "everybody is happy" because the \$14-a-day scale to journeymen plasterers, and that the scale for two weeks ago yesterday was increased from \$12 to \$14 of about 150 men, had been successful.

Anderson said the plasterers' hod-carriers also are being paid the new scale of \$10, the old scale having been \$9 a day, and that all the men are working again.

"Some of the employers got 'cold feet,'" he said today, "and last Monday one big contractor said he was going ahead with his work at the new scale. Then, one or two others said they would have to, too, and so the rest of us just fell in line. The men have won their strike, all right."

Anderson would not identify the "contractor" who started the "cold feet" to the demand.

Conference Held.
"We held a conference yesterday with the plasterers," he continued, "and we got some agreement with them. We wanted them to see us more notice in the future, they wouldn't agree to anything, and most of the employers left without accomplishing their end."

"The real estate men were paying a new scale," he added, "and the contractors were losing money while the jobs were being held up. Some said at first they would stick, but they didn't think the walkout would hurt more than a few days. They were weak-kneed when it continued for two weeks, and a number have been paying the scale demanded for several days now."

It is known, the journeymen plasterers were among the highest-paid building craftsmen in the country at \$14 an hour, or \$12 a day, the peak rate for this sort of work even during the war period. With the rate at \$14 a scale, or \$17.50 an hour, they are the highest-paid men in the building industry.

Their hod-carriers' scale of \$12.50 an hour is higher than any other hod-carriers in the city, and the plasterers' scale has been in effect for a number of years. In 1914 they were paid 75 cents an hour. During the war it increased to \$1.50 in 1917, then to \$1.75 in 1918. It was not until after the war that it was raised to \$1.75. A year later they were paid \$1.75, which prevailed until December as the highest building labor scale, going to \$1.50, last week.

The plasterers' hod-carriers' scale was a similar trend, although in 1917 they dropped from 93 cents to 85 cents, returning in 1922 to 93 cents, and getting \$1.12 1/2 in 1923. The plasterers' demand last December was effective in the general increase of wages.

Frank Boyd, secretary of the Contractors' Association, said he had been at another meeting today, and had not heard what action was taken at the conference between journeymen plasterers and employers.

"We formed an association of subcontractors," he said, "in preparation continuing the fight against this demand. I was in ignorance of the demand to the demand."

He said he thought the association could have won "it" and expressed regret at the action taken. He added that the subcontractors' organization is known as the Federated Building Trades Association, would perpetuate despite the loss of a strike. "We will have an association to work offensively and defensively," he asserted, "for use in any difficulties."

Met Death in Mid-Ocean

MISS ADELE ASH.

EAST ST. LOUIS WAR NURSE LOST AT SEA

Adele Ash, Stewardess on Pacific
Liner, Believed to Have
Leaped Overboard.

Special to the Post-Dispatch.
LOS ANGELES, Cal., June 26.—Adele Ash of Signal Hill, near East St. Louis, second stewardess on the liner City of Los Angeles, disappeared from that vessel while at sea between Los Angeles and Honolulu last Tuesday night, it was announced today by the Los Angeles Steamship Company.

Miss Ash is said to have told passengers on the steamer that she had tired of life and intended to go overboard before the vessel reached port. She suffered at intervals from melancholy. She served as an army nurse in France during the World War.

Miss Ash Formerly Taught School in East St. Louis.
Miss Ash, 35 years old, was born and reared in East St. Louis; was graduated from the East St. Louis high school, taught school there and at one time was principal of the Washington school.

During the World War she served in France as a Red Cross nurse and her health became impaired. Upon her return to the United States she visited her parents for three months at their home on Wilson avenue, Signal Hill, East St. Louis, and then went to Los Angeles in 1919.

She taught school in California for three years, but gave it up, owing to impaired eyesight, and went to sea as a stewardess.

Her parents are Mr. and Mrs. John Ash, of Signal Hill. Her father is a retired railroad engineer. They received a letter from her dated June 14, in which she spoke cheerfully of her third trip to Honolulu, which was to begin next day. That is the last word they received from her. Last night they received a telegram from the steamer ship, stating that she had disappeared when the ship was on the return voyage.

HEARST RANCH TO BE SEIZED
By the Associated Press.
MEXICO CITY, June 26.—W. M. Ferris, manager of the Babco ranch in Chihuahua State, owned by H. H. Hearst, has received word from Gov. Ignacio Enriquez that the Chihuahuan agrarian commission is about to take recourse to the agrarian laws for the purpose of taking over part of the ranch property.

Mr. Ferris, who is in this city, said he did not know how much of the ranch, comprising 100,000 acres, might be affected through the contemplated restoration of the land to the villages. So far as is known, the national agrarian commission has not acted.

Capital, Surplus, Profits, \$15,000,000

DOWN RIVER
MADE IN LESS THAN
WEEK BY 'VICKSBURG'

Continued From Preceding Page.

State of Mississippi, and on the opposite Louisiana shore, the watcher in the pilot house, or on top of one of the barges, sees few towns and villages. Vicksburg and Natchez, neither city seen to advantage from the river, break a long expanse in which human beings do not seem to have ventured to make their homes near the shifting waters.

This loneliness contrasts with the traveler's recollections of the banks of the Mississippi River, with the recollections of towns, or of the Mississippi course past the states farther north. Except for Government lights, and for signs of cultivation seen in the more extended view, the traveler on this stretch of the river can readily imagine that he is viewing the same scenes that La-Plade and his men saw when they sailed laboriously upstream in 1763.

After the State of Mississippi is left behind, and both banks are Louisiana, still the series of bends and curves southeast, the apparent desolation ceases, and the "country" again is reached. Here the levee, kept up through constant attention of the Government, is the security of the cane planter, and the quarter-master of the repair system are seen at intervals.

Below Rouge, one of the comeliest of river cities, may be seen across country long before it is approached directly. The Louisiana Capitol, facing the river, looks more like a military academy than like the traditional State House. It is a high, square pepper box of a building, with a turret front and with an iron and glass cupola. It resembles the dome of St. Peter's, which occurs at Washington, which occurs in most of our Capitol architecture.

Array of Ocean Steamers. But more interesting than anything to be seen on shore at Baton Rouge is the array of ocean steamers along the river front there. Whatever wisecracks used to tell us that, no matter how much we might deepen the Mississippi's channel, ocean steamers would not come up the river without the guidance of pilot-craft, such as are used in New York harbor. However, here the ships are, more than 100 miles above New Orleans. Most of them are oil tankers, for one learns here, as elsewhere in the Palmetto State, that "oil" is not the name of a hot-weather drink, but signifies the Standard Oil Co. of Louisiana.

Plaquemine, which reached the dark, is the next sizable community, and through the night the lights of towns and villages frequently sparkled across the water.

More ships, including a parked group of some 40 vessels of the United States Shipping Board, are along the New Orleans water front. Here the facilities for receiving the large line's cargo, at Blenville street, are but a detail of a 10-mile extent of modern water terminal, built by the City Dock Board, which is enabling New Orleans to function as the nation's second seaport.

The view of these terminals that one gets from land, by a narrow approach, is a curious conformation of Tchoupacha street, is hardly less notable than that gained from the water. It impresses strongly, on the visitor, the magnitude of the commerce with the Gulf of Mexico, and the connection by the Mississippi-Warrior Service, and will be more effectively connected when that service is made more ample and frequent.

FATHER VRANIAK BELIEVED TO
HAVE BEEN IN TOPEKA RECENTLY

First's Brother Is in Kansas Town Conducting Search for Missing Man.

TOPEKA, Kan., June 26.—Additional evidence that the Rev. Father John A. Vranlak, Catholic priest, residing since March 5 from his parish in Virden, Ill., has been in Topeka recently, was obtained yesterday.

W. C. McNeil, manager of a meat market, informed police that a man talking closely with the description of Vranlak called at his market last Friday and asked for a job. McNeil quoted him as saying that he had been in the army and had been tried for twenty, and that his mother, sister and brother—a dentist—were trying to have him sent to the asylum.

McNeil said the man answered the description of the missing priest, except to the small scar on the left cheek. He wore no hat.

The missing priest is said to have been seen at a certain restaurant at Cape Park, and at the Hope Mission here recently. The trail was followed by a detective from Topeka again. At Hope Mission the minister in charge said he was impressed with the stranger because of the manner in which he led in prayers. In conversation the stranger said he desired to go to Mexico to do missionary work.

The priest's brother, Frank Vranlak, and J. W. Diamond of Springfield, Ill., are here conducting the search.

BRAND NEW,
CRISP—LATEST

DRESSES
95c—\$1.95

Finest Sport Silk or Flannel Dresses, \$3.75, \$5.75

Porch Chair, \$7.95

Built roomy of willow, and finished in gray or brown enamel. Complete with loose cushions. Two patterns from which to select. (Seventh Floor.)

RETURNS TO FACE CHARGE OF
WRITING SCURRILOUS LETTERS

George Maxwell Gives \$5000 Bond—
Were Written by a Woman.
Special to the Post-Dispatch.
NEW YORK, June 24.—George Maxwell, president of the Authors, Publishers and Composers' Association, has returned to face his accusers. Tall, immaculately dressed and with courtly manners, the man

under indictment charged with sending lurid letters to Allan A. Ryan about Mrs. Ryan and himself, appeared at the Criminal Courts Building with his lawyer yesterday and gave bond.
Maxwell and his lawyer then visited District Attorney Ranton, who after their 10 minutes conference, announced Maxwell had "offered to waive immunity, submit to questioning and assist in every way possible."
Maxwell issued a statement deny-

ing vehemently authorship of the "poison pen" letters and pledging himself to "bring to justice the guilty parties who have made my life miserable and who have tortured me and my friends during the past six years with these scurrilous epistles."
Before the conference Burkan made it clear that he and his client were satisfied who was responsible for the letters.
"It's a woman's work," the lawyer said. "It was done deliberately out of jealousy to ruin this man's career."

DEAD AND INJURED
IN L TRAIN WRECK
NOW NUMBER 91

Bolt or Iron Bar Believed
to Have Dropped From
Truck of One Car, Causing
the Derailment.

GUARD RAIL FOUND
TO HAVE BEEN ROTTEN

Two-Car Train Carried Trolley Wires With It in the Plunge and They Retarded Rescue Work.

By Leased Wire From the New York Bureau of the Post-Dispatch.
NEW YORK, June 24.—The only theory of yesterday's wreck on the Brooklyn-Manhattan elevated line in Brooklyn that experts for the transit commission had been able to reach last night was that a bolt or iron bar had dropped from the truck of one of the cars, causing a derailment. District Attorney Dodd said that even this might not have caused serious results had it not been that the guard rail was rotten. No definite findings were reached by the Transit Commission. The two cars which plunged into the street were of wood, built in 1918. Eight persons were killed and 33 injured in the accident.

If theories are correct, wherever there is a combination of a rotten guard rail with a car so old it is falling to pieces there may be a recurrence of yesterday's accident. However, Transit Commissioner Harkness recalled that in 25 years there had been only one similar occurrence on the Brooklyn "L."

A two-car train, well filled with an early afternoon crowd of women, children and a few men, jumped the rails, ripped through rotten guard beams, tottered on the edge of the structure while hundreds of passers-by stood spellbound in terror, and pancaked on its side to the pavement, a mass of splintered debris. Carrying with it a mesh of electric trolley wires, the train hurtled to the pavement amid spurts of blue flame and crackling wire. As screams of the pinned passengers, many of them transfixed by sections of broken wood, rose above the crash, flames shot from underneath the cars and drove back pedestrians who ran to the scene. The driver of a delivery truck, the radiator of which had been caught under the falling train, rose, white and trembling, from the seat, burst into tears and staggered away. Two women, shaking as if with palsy, their faces bleeding from cuts, climbed out of the wreck and walked after him.

Within a few minutes a dozen pieces of fire apparatus and police patrols had broken their way through a cordon of several hundred bystanders. A score of ambulances arrived as the firemen fought to choke off the flames.

Axes Are Wielded.
Policemen, ambulance internes and employees of the railway, wielding axes, fastened one after another of the victims. Two hours were required to clear the wreckage of the bodies of living and dead.

Edward Farrell, motorman of the train, who escaped without a scratch, was arrested, charged with homicide. Hyman at the scene.
"I am convinced," said the Mayor, "that the accident was caused by a defective truck leaving the tracks and crashing through a rotten guard rail, which, if good, should have prevented the fall to the pavement. The present guard rails are 20 years old."

All investigating officials agreed that the accident had had its inception at a switch 50 feet beyond which the train had plunged to the street. The Mayor, who had worked as an employee on the elevated road when it was built many years ago, asserted that the second car had been derailed at the switch, had dragged along on the ties and had plunged the first with it through the rotten guard rail.

Although Farrell, the motorman, asserted that he had seen the switch turn to green, giving him right of way, the switch was turned to red after the accident. The Mayor openly charged that it had been tampered with after the crash.

18 DEAD IN STORMS
IN NORTHWESTERN STATES

Six Perish in North Dakota Tornado—Several Drownings Reported in Minnesota and Wisconsin.
By the Associated Press.
ST. PAUL, Minn., June 24.—Reports of a severe storm in Southwestern Wisconsin and Northeastern Iowa were received today, as advice from other sections of the Northwest told of clear, cool weather where storms Sunday and Monday took a toll of

18 lives and hundreds of thousands of dollars in property damage. Heavy hail was reported from La Crosse. Six persons perished when a tornado swept Western Bowman and Eastern Adams counties in North Dakota Sunday night. Twelve persons were seriously hurt, one probably fatally, and five slightly injured. Three persons met death in the vicinity of St. Paul by drowning near Huron, S. D., and at Goodwin, S. D., a farm hand was killed during a windstorm. Seven other deaths were reported

from other sections of Minnesota and Wisconsin from drowning, electrocution and accidents, all attributed to the storms.

Lemonade stand, 5937 Enright avenue	2.50
Webster Grove children	1.50
Lemonade stand, 1406 Glasgow avenue	1.10
Show, 4931 McPherson av.	1.10
Total	\$885.58

Nine benefits and four cash donations added \$25.51 to the Post-Dispatch Free Ice for Babies' Milk Fund over the week-end, bringing the total in the fund to \$885.58. Nearly 600 families have made application for hot weather relief since the beginning of summer and the list is being added to each day. It is estimated that approximately \$1,100 will be needed to furnish ice to those dependent upon the fund during the month of June alone, and at least the same amount in August. Smaller portions of ice are provided during the months of June and September, but at least \$4500 will be needed to defray the ice bills this summer.

Children from the 1800 block of Cates avenue gave a lawn party and masque at 5937 Cates and earned \$10 for the Ice Fund. Some who took part were: Virginia Smith, Phoebe Wood, Virginia Moore, Mary Frieda Moore, Martha Louise Moore, Marjorie Owen and Mary Louise Bowen. W. J. Forster, Jr., assisted by Ruth and Minnie Altmeyer, conducted a lemonade sale and gave a show at 4552 Clayton avenue, last week. The net proceeds of the affair amounted to \$7.50, which was donated to the fund.

Show Earns \$7 for Fund.
Friends of the babies reading in the neighborhood presented a show at 1804 Darrington avenue two evenings last week and realized \$7 for the Ice Fund. Those who promoted the show and took part in it were: Eleanor Caffarella, Richard Meyer, Nellie Mary and John Wagner, Jack Trunk, George Bea, Jeannette Liechtenstein, Pauline and George Simpson, Mary Jane Myra, Virginia and Billy Kewin, Betty and Jane Noland, Donald Leary and Eugene Caffarella. Nearly all these children have been regular workers for the Ice Fund for several years.

A check of \$5.17 came from seven children who conducted a lemonade and chewing gum sale at 775 Goodfellow avenue. The children's names follow: Josephine Hecht, Ranette Jacobson, Stanley Albin, Sam Brightman, Alvin Jacobson, George Brightman and Norman Beal.
Last Thursday evening Margaret Marquis, Marie Clardi and 4-year-old Harriette Blankenship presented a miscellaneous program of music, dancing and reading numbers in the yard at 4931 McPherson avenue. The ground space was so small that it was necessary to use all of it as a stage so the ingenious child-actors placed paper on the fire escapes of apartments overlooking the yard and disposed of the steps as "reserved seats," realizing \$1 for the Ice Fund. Cash donations included \$5 from the Women's Christian Organization of Harney Heights; \$5 "in memory of little Vera G. Seelig" from her grandmother, Mrs. Susan Seelig of 5823 Waterman avenue; \$4.15 from Victory Temple No. 94, Pythian Sisters, and \$1 from I. W. W.

GAMBLER SAYS HE BORROWED \$187,000 FROM FULLER & CO.

Convicted Head of Firm That Later Became Bankrupt Refuses to Answer Questions.

By the Associated Press.

NEW YORK, June 26.—Arnold Rothstein, gambler, testified before Referee in Bankruptcy Coffin yesterday that he had borrowed \$187,000 from the brokerage firm of E. M. Fuller & Co., which subsequently failed for \$5,000,000. An attempt was made to prove that Rothstein borrowed a large part of this sum on inadequate collateral.

Rothstein's examination followed the refusal of Edward M. Fuller, convicted bucketeer, to answer questions regarding assets of his own firm. Fuller said that as he had engaged new attorneys, he felt he should go over the case with them. His examination was postponed until Thursday.

William S. Silkworth retired as president of the Consolidated Stock Exchange today. His resignation was accepted at a meeting of the special exchange committee yesterday. Silkworth had been "under fire" in connection with the investigation of the Fuller failure. Silkworth ceased to be a member of the exchange, also, it was announced, having sold his seat. Lawrence Tweedy, a member of the exchange since 1909, is expected to succeed Silkworth.

Silkworth was a witness last week at a bankruptcy hearing on the failure of E. M. Fuller & Co. He was called to testify regarding a check for \$517.50 made out to him by the firm.

The net loss to the public as a result of recent stock exchange failures, including those of the past two weeks, will not exceed \$4,000,000 or \$5,000,000, Seymour L. Cromwell, president of the New York Stock Exchange, declared yesterday.

Canadian Pulp Wood Bill Passed.

By the Associated Press.

OTTAWA, June 26.—A resolution empowering the Government to make regulations prohibiting the export of pulp wood from Canada was passed by the House of Commons yesterday. The nature of the regulations had not been determined, it was said.

Low Summer Excursion Fares

until Sept. 30, 1935

TAKE advantage of these greatly reduced fares to enjoy a vacation in The Magnificent West. Plan your trip via the

American Canyon Route TO CALIFORNIA

On this route all the things that justify the expression "The Magnificent West" are unfolded in one great continuous panorama—blooming fields, graceful streams and streams, beautiful mountains, every variety of mountain and valley scenery, then California—California—a perfect paradise for the devotees of the out-of-doors, where bathing, boating, fishing, camping, golfing, swimming and hiking are at their very best. GO WEST for a change and be happy in memories forever after.

FASHIONGRAMS FROM PARIS

McCall Printed Pattern 3275
RIGHT in front there is the wide soft bow of fabric that makes the dress smart instead of just pretty. Instead of sleeves a short cape comes over the shoulders and then falls in graceful folds behind.
Dotted Swiss, voile or embroidered organdie are the best materials for this style which owes much of its charm to its delicate sheerness and transparency.
Sketched from McCall Printed Pattern 3275, 45¢.

GRAND-LEADER

No Delay in First-Class Mail.
By the Associated Press.
WASHINGTON, June 24.—The order holding up transportation of first-class mails to Europe for two days from June 23 because of lack of funds was countermanded yesterday and all first-class mail will go forward without interruption. Foreign parcel post, however, will be held up until the new appropriation becomes available, July 1.

Steamer Passengers Safe.
By the Associated Press.
HALIFAX, N. S., June 24.—Passengers aboard the Royal Mail steamship Caraque, which went aground on a reef 12 miles north of Bermuda, have been taken off the ship by tug. It was announced at the company's office last night. Mail was also removed and no casualties were reported. The vessel was fast breaking up, it was said.

WITNESS IN MURDER TRIAL SAYS HE WAS APPROACHED

Testifies Agent of Counsel for Mrs. Buzzi Asked Him to Forget Phone Talk.

By the Associated Press.
NEW YORK, June 24.—Joseph Boynton, assistant treasurer of Ringling Brothers' circus, today admitted at the trial of Mrs. Anna Buzzi, charged with the murder of Frederick Schneider, that an agent of Mrs. Buzzi's counsel had asked him to keep quiet about a telephonic conversation between Mrs. Buzzi and William Turc, her brother-in-law, he overheard the day before the crime.
Boynton said he and Richard Smith, another circus employee, were with Turc when Mrs. Buzzi telephoned him and, according to Turc, asked for a revolver. Boynton testified he loaned Turc the revolver which was eventually loaned to Mrs. Buzzi. Turc, recalled today, emphatically denied statements made by his wife, Mrs. Vivian Turc, and by Mrs. Buzzi and Mrs. Sophie Dickenson, his sister-in-law, that he had threatened to kill Schneider.
Taking the witness stand in her own defense yesterday, Mrs. Buzzi calmly answered every question in a long cross-examination and denied any connection with the slaying.
She declared that the testimony of William Turc, her brother-in-law, who said she requested him to obtain a pistol and told him later that she had killed Schneider because of his attentions to other women, was false in every detail. She reiterated her assertions that she never was outside her apartment on the day of the shooting.
Schneider was shot dead at the wheel of his automobile on a lonely highway in the Bronx last February. A farmer heard the fatal shot and saw a woman walk away from the car and up the highway. Mrs. Buzzi was held for some weeks as a material witness and was charged with murder on the accusations of Turc, to whom the revolver used in the slaying had been traced.

WOMEN TO BE 'ASSOCIATES' ON REPUBLICAN COMMITTEE

Each Member of National Body of Party to Appoint One, Chairman Adams States.

By the Associated Press.
WASHINGTON, June 24.—Each member of the Republican National Committee was requested by Chairman Adams yesterday to appoint a woman in his State as an associate member of the committee. Announcement of this action was made in a statement issued from headquarters of the committee, as follows:
"John T. Adams, chairman of the Republican National Committee, today requested each member of the National Committee to appoint, as early as possible, a woman in his respective State who will serve as an associate member of the Republican National Committee. This action is in accordance with a plan agreed upon by President Harding, Chairman Adams, Mrs. Harriet Taylor Upton, vice chairman of the Republican National Executive Committee, and Hamilton Kean of New Jersey, chairman of the subcommittee appointed by the National Committee to canvass the situation. The plan as agreed upon has been approved almost unanimously by the members of the Republican National Committee."
The question of giving women more recognition in the party councils has been under consideration for some time. The matter was discussed several weeks ago at a White House conference between President Harding and Adams, after which the latter announced it had been determined to give women representation either in an associate or advisory capacity on the National Committee.

SERBIAN PLAN TO ABSORB ALL OF BULGARIA ALLEGED

Copy of New Jugo-Slav Constitution, Embodying It, Found in Desk of Serbian Premier.

By the Associated Press.
SOFIA, Bulgaria, June 24.—The commission of inquiry investigating the conduct of the Stamboulisky ministry announces the discovery in Stamboulisky's desk in Parliament of a typewritten copy of a new constitution for Jugo-Slavia, annotated in Stamboulisky's writing and containing provisions for the absorption of Bulgaria by Jugo-Slavia.
The plan, as made public, involved the sacrifice of the dynasty, as King Boris is not Slavic and the assumption of the Bulgarian throne by the King of Serbia, the removal of all Bulgarian troops from Croatia and Slavonia, assignment of Serbian garrisons to Bulgaria, appointment of Bulgarians to office in remote parts of Jugo-Slavia and of Serbian officials to all Bulgarian posts. Serbian to be the official language and the Bulgarians to use their own language locally.
Public opinion in Bulgaria is deeply stirred over the announcement, as it is considered that the plan involved the complete sacrifice of Bulgarian nationality.

AMERICAN GYMNASIUM UNION VOTES TO TAKE ITS OLD NAME

Will Be Known as American Turnbund—Pittsburgh Wins National Headquarters.

The American Gymnasium Union henceforth will be known by its old name, "American Turnbund," through action of its twenty-ninth annual convention at Concordia Turner Hall yesterday.
St. Louis lost in the race with Chicago and Pittsburgh for national headquarters of the organization, the choice going to Pittsburgh after several ballots. Elkhart Lake, Wis., will entertain the next convention, in 1925.
The delegates passed a resolution condemning prohibition and another criticizing America for silence on the French occupation of the Ruhr.

JAPANESE IMPERIAL FAMILY WILL BECOME DEMOCRATIC

"Fewer Guards, Less Pomp and Ceremony," Says Announcement From Tokyo.

By the Associated Press.
LONDON, June 24.—In line with the democratic tendencies of European Kings and Queens, the Japanese imperial family, says a dispatch from Tokyo, will in future adopt a more democratic attitude in its public activities. Much of the pomp and ceremony which accompanied the social functions of the royal house

in the past will be eliminated. Members of the imperial family plan to attend theatrical performances, concerts and similar public gatherings more frequently, and will mingle with the people with greater freedom than heretofore. Guards of honor which have invariably appeared in the past as escorts to members of the imperial household are being dispensed with, except in the case of state functions.

BREEZE BRINGS SOME RELIEF FROM HEAT

Prediction Is That Storm Area
in Northwest Will Result
in Cooler Weather.

A breeze here and a cloud there furnished about the only signs of moderating temperature today. This was the seventh consecutive day that the record has run into the nineties, 95 on Saturday being the highest mark.

The local prediction bears the "not much change" line, but a general prediction from the Chicago office declares that lower temperatures in the central States generally are likely to result from a storm area in the Canadian Northwest.

Mrs. Mary Sertell, 46 years old, of 3700 Easton avenue, died at 2:30 a. m. today of a heart attack, believed to have been superinduced by the heat. She lived with relatives. A man who was overcome by the heat Sunday while fishing in the river at Carroll street, and who died later in the City Hospital, proved to be Daniel Clark, 42, of 2301 Chouteau avenue, a Missouri Pacific railroad employe.

Joseph Farr, 65, of 38 Logan street, Belleville, died in St. Elizabeth's Hospital yesterday from a heat stroke suffered last Saturday, while he was at his work in a factory. William Druse, a carpenter, who was overcome while at work yesterday, is in St. Elizabeth's.

BAR OWNERS, TOLD TO REMOVE SCREENS, GET INJUNCTION

Temporary Order Restrains Police
From Enforcing That Section
of New Law.

On petition of attorneys representing more than 100 proprietors of soft drink stands, Circuit Judge Hall yesterday issued a temporary order restraining police from enforcing that section of the new State prohibition law which forbids such establishments having screens or obstructions preventing a full view of the interior from the sidewalk. The order is returnable July 9.

The petition asserted the law was class legislation and, therefore, unconstitutional, and declared that removal of the screens would result in great expense and loss to the owners.

MANY PERSONS HURT WHEN WALK AT THEATER COLLAPSES

More Than 40 Suffer Broken Legs
or Sprains When Dropped 15
Feet Into Ditch at Dallas.

By the Associated Press. DALLAS, Tex., June 26.—Forty or fifty persons suffered broken legs or fractured and sprained ankles last night when 100 men, women and children pitched from a board walk, leading to an open air theater, into a ditch fifteen feet below. The accident occurred just before the opening performance of a stock company at Cycle Park Theater. The performance was canceled.

The theater management said that on Monday it had a chain strung across in front of the platform to prevent people from going on it in dense crowds, but that last evening there were about 400 people outside, and guards were stationed. The crowd surged forward until the walk collapsed.

HIGHER RENTALS PREDICTED

Chicago Investment Banker Says
Building Cost Will Climb.

By the Associated Press. CHICAGO, June 26.—Increased building costs followed by higher rentals was predicted by S. W. Straus, investment banker, upon his arrival here today from New York and a four month trip through Europe.

There are approximately 100,000 less skilled men available in the building crafts of the United States than there were ten years ago, while there should have been an increase of at least that many, he declared.

"The important need of the situation is that all interests connected with the building industry must work together to bring about stabilization of costs," he said.

Woman Shoots Negro.

Thomas Hinton, 38 years old, a negro, of 1734 North Twelfth street, was shot twice and seriously wounded yesterday by Mrs. Corinne Boochieri, proprietor of a confectionery store at 1404 North Eleventh street. Mrs. Boochieri told police she fired when Hinton attempted to attack her. Hinton denied this and asserted the trouble arose over the purchase price of "moonshine" liquor he had bought from her.

Mass Meeting to Raise Funds.

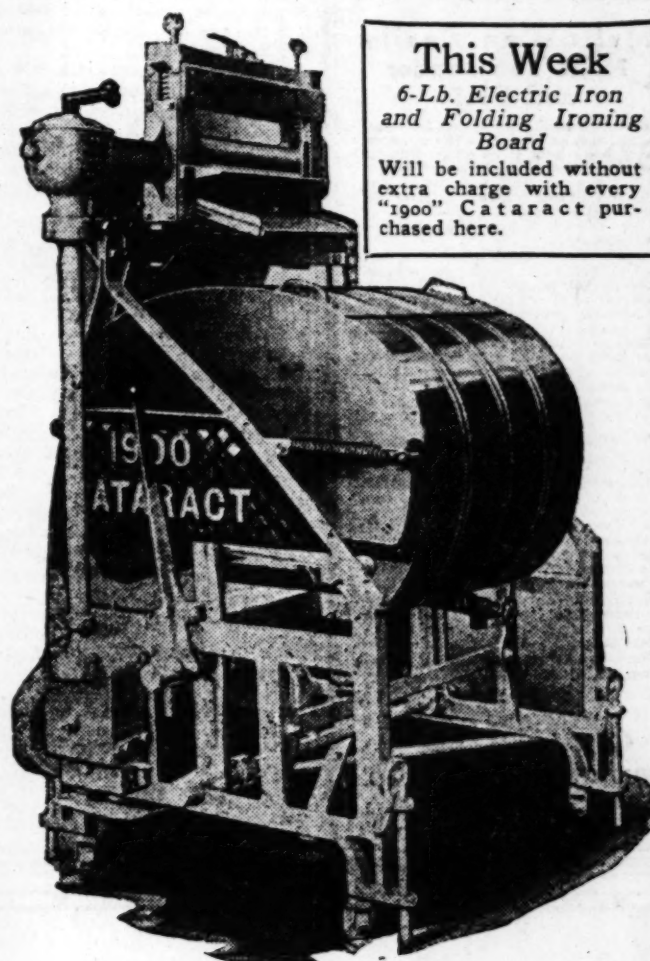

By the Associated Press. HOLDEN, Mo., June 26.—A mass meeting has been called here for tomorrow night, when subscriptions will be sought to aid in obtaining the arrest of persons who attacked and killed George McCormick Saturday night. Benjamin Knight, one of those alleged to have been in the attacking party, which is being witnessed to have comprised five men, was mortally wounded when Lowell McCormick, McCormick's son, fired the only cartridge he had for his shotgun. Frank Carey, wanted in connection with the murder, has been arrested in Kansas City, Kan.

Limits Reconstruction of Antiques.

By the Associated Press. PARIS, June 26.—As a result of the recent charges that antiques and reconstructed pieces have been faked, President Jonah of the French Antiquarian Association has ruled that not more than 10 per cent reconstruction of Gothic fragments is to be permitted if they are to be considered genuine antiques. He points out this is the limit fixed by the French customs authorities.

5 YEARS IN PRISON FOR AN \$18 HOLDUP

Ralph Taff Convicted of Robbing Man on Thurman Boulevard on Christmas Eve.

Ralph Taff, 22 years old, of 4541 Swan avenue, a laborer, was convicted yesterday by a jury in Circuit Judge Grimm's court of highway robbery and sentenced to five years in the State Penitentiary.

He and Walter Ogle, 40, of 4269A Blaine avenue, were jointly charged with having held up Joseph P. Lutz, of 4134 McRee avenue, on the night of December 24, last, and robbed him of \$18.95. Ogle took a severance and will be tried later.

Lutz was on his way home about 10:30 o'clock the night of the robbery. On Thurman boulevard, near McRee avenue, two armed men crossed the street in front of him, held him up, took him behind an apartment house, and took his money.

At 9:30 a. m. next morning, five hours later, a policeman halted Taff and Ogle at Taylor and Manchester avenues for questioning. Ogle fled, but was captured and a revolver was found in a lot through which he ran. Another revolver was found where Taff had stopped. Lutz identified Taff and Ogle as the robbers.

Taff had no witnesses and entered a general denial of the charge, but he could not account for his whereabouts that night, except in a general way.

Sale of Sarah Bernhardt's Library.
By the Associated Press.
PARIS, June 24.—The first day of the sale of Sarah Bernhardt's library realized \$9,137 francs (about \$4,275). The highest price paid was for two volumes of the portraits of great men, dated 1788. These brought \$600 francs.

PLANT TO DISTILL MOTOR FUEL FROM COAL BACKED BY FORD

Factory Now Under Construction at Walkerville, Ontario, to Be Used.

By the Associated Press.
DETROIT, Mich., June 24.—Backed by Henry Ford, a plant for the low-temperature distillation of coal, whereby a ton of coal is expected to yield as high as 10 gallons of motor fuel, as a by-product, is under construction at the Ford factory at Walkerville, Ontario. This an-

Mix It Yourself
—it's always fresh!

Mix Colman's Mustard only with cold water ten minutes before using. It takes just that time to liberate the essential oil which acts on the salivary glands and so greatly aids digestion and assimilation of foods.

Melto Can Easily Make You Slender and Cool!

Whenever you have too much fat—legs, arms, bust or hips—it is the unnecessary body heat given off by this fat which makes you suffer from the heat. You may not be fat all over. But enough superfluous heat is given off by these legs alone for instance, to make you hot and irritable all over—all summer!

A great many people know this, but would not think of reducing. Reducing, in their minds, is connected with starvation diets and painful and grotesque exercises which have been made ridiculous even by the cartoonists. They naturally don't see any sense in going through all that suffering to reduce all over, when they aren't fat all over. And they're right!

Melto
The Pleasant Way to Reduce
Where You Want to Reduce
This delicately fragrant rose-colored cream is a remarkable scientific discovery which is absolutely harmless! Rub Melto into the skin where you want to reduce, for five short minutes every night. The mirror, scales and tape measure will show results in a remarkably short while.

Get a box, jar of Melto for \$2 at any reliable drug store or toilet goods counter today. Start reducing, in comfort, tonight.

Write for valuable booklet on reducing, mailed free upon request.

BABY BORN IN FOREST PARK; MOTHER WANDERED ALL NIGHT

Husband Says Woman Left Home Yesterday After Spat With Neighbor; Condition Critical.

A baby boy was born in Forest Park at 9:34 a. m. today. The mother was Mrs. Mamie Dippel, 23, of 2014 Menard street. She apparently had been wandering all night. Her husband, Frank, told police that she and a woman neighbor had a dispute yesterday over rights to a wagon line in the yard they shared. She became greatly overwrought and left the house. He had been looking for her, he said.

Residents at 5125 Lindell boulevard heard moaning in the park near Lindell boulevard side and called policemen. Mrs. Dippel and the child were taken to city hospital, where doctors said her condition was critical. The baby is reported to be doing nicely.

MAN TO BE BROUGHT BACK TO FACE OLD MURDER CHARGE

Special to the Post-Dispatch.
JEFFERSON CITY, June 24.—Walter Lane will be brought back from Los Angeles to St. Clair County, Missouri, to answer a charge of murdering a man seven years ago, under a requisition issued today by Gov. Hyde.

Prosecuting Attorney W. W. Wright, of St. Clair County, in the application for the requisition, stated it was recently learned that Lane murdered Earl Franklin Husted, June 17, 1916.

Husted was fatally wounded and died in a hospital in Springfield. Lane is alleged to have fled from Missouri Sept. 15, 1921.

Auto Speeders Shoot Up Saloon.
A series of revolver or pistol shots fired into the saloon of Clifford O'fer, 901 Chouteau avenue, at 12:30 a. m. today, broke a plate glass window and another smaller window. Police were told the shots were fired from an automobile that

sped west in Chouteau avenue. It was occupied by several men. The saloon had been closed some time before. Offer was unable to explain the motive for the bombardment. The damage was estimated at \$100.

An Easy Way To Banish Wrinkles

New Discovery Gently Smooths Them Away—Like Magic

No longer is there any excuse for wrinkles! A new discovery of Science proves it. With this new treatment it is just as if a magic wand were brushed across your face, banishing every tired line, every laugh or frown wrinkle, every tell-tale mark of time! Why let wrinkles add age to your face? Why let your beauty be spoiled by tragic lines and furrows, when they can now be erased as easily as pencil marks?

How It Works
This new discovery, called Domino Wrinkle Cream, is entirely different from anything known or used before. Unlike other treatments it does not attempt merely to conceal the lines. Instead, it gets right at the underlying cause of wrinkles—removes it in a perfectly natural and harmless way—and the lines and wrinkles disappear almost before you realize it. No tedious massaging, no painful electric treatment, no harmful lotions. Just press a small quantity of

DOMINO WRINKLE CREAM

As natural as barefoot

As much fun as going barefoot—yet with all the protection their feet need. That's what Keds mean to millions of children all summer long.

Keds are economical, too. Their uppers of fine, selected canvas and soles of tough, springy rubber are built for long wear.

Keds come in many styles—high shoes and low, pumps, oxfords and sandals—styles for men and women, girls and boys.

Remember—Keds are made only by the United States Rubber Company. To get real Keds value, make sure the name Keds is on the shoe.

SUPREME COURT UPHOLDS CONVICTION OF WIFE SLAYER

Poplar Bluff Shoe Maker Is Given Sentence of 25 Years' Imprisonment.

Special to the Post-Dispatch.
POPLAR BLUFF, Mo., June 25.—The Missouri Supreme Court has upheld the conviction of James Lelies, shoe maker, of Poplar Bluff, who on January 13, 1919 shot and killed his wife, while she was nursing their six-months old son. He is under a prison sentence of 25 years.

The shooting was the result of a love triangle. Soon after the shooting, Lelies was tried in Butler County. The jury could not agree. At the next term of court, Lelies was found guilty of murder in the first degree, and sentenced to life imprisonment.

The case then went to the Supreme Court where it was remanded. Lelies was found guilty a second time, but the sentence was for only 25 years. Another appeal was taken to the Supreme Court, which upheld the verdict.

On the day of the murder, Mrs. Lelies is said to have made a statement to her husband that she was going to St. Louis where she would meet Harry Thomas. Lelies pleaded with her not to leave their children, and after a heated argument the shot was fired.

The murdered woman's mother, who lives in Poplar Bluff, sided with Lelies after the murder, doing all she could to obtain a moderate sentence.

INCREASE IN PERCENTAGE OF WOMEN IN BUSINESS

Statistics Indicate They Will Control All Business in Century, Investigator Reports.

By the Associated Press.
NEW YORK, June 25.—All the business of the world will be transacted by women within a century if the trend now indicated by census statistics continues, Mrs. Alice Foote MacDougal, New York feminist, announced yesterday after a period of intense research.

Since 1880, Mrs. MacDougal said, she had discovered the percentage of women in business increased from 14.7 to 21.0, while the percentage of men gainfully occupied dropped five-tenths per cent.

"I don't pretend to predict what the men will do," she said. "Someone has to do the housekeeping. I suppose, and if the women are otherwise engaged the men will have to do it. Probably by that time, though, inventors will have relieved human drudgery to an extent that it will be pretty easy for the men."

E. J. McMAHON RESIGNS

Master Builders' Association Secretary Succeeded by R. L. Murphy.

E. J. McMahon, executive secretary of the Master Builders' Association, announced today that his resignation has been accepted, effective Saturday. "My resignation has been in since March 15," McMahon said. "I have been waiting until a successor was chosen." He was Colonel of the 138th (St. Louis) Infantry overseas.

R. L. Murphy, a city engineer in the Department of Public Safety, has accepted the office, and will assume his duties next Monday. McMahon said he would take a vacation for a month or so, and go into business for himself late in August. He was not definite as to his prospects. He was secretary of the builders' organization for a year and a half, taking office in January of last year.

ACTION IN JURY FIXING TRIAL

Examination of Veniremen Begun; Grand Jury Drops Inquiry.

By the Associated Press.

WAUKESHA, Ill., June 25.—Examination of veniremen began today in the trial in Lake County Circuit Court of John B. Field, Edward Kaufman and Edward Courtney, indicted on a charge of jury tampering in the trial of Gov. Small a year ago. Field, a jurymen in the Governor's trial, is charged with having taken \$350 for his influence toward an acquittal verdict. Kaufman and Courtney are named as distributors of funds in the county during the Small trial with a view of obtaining a favorable verdict.

The defendant won the first skirmish of the trial today in the announced abandonment of the grand jury investigation into the alleged jury fixing. With the opening of court today it was learned what plans for further inquiry during the present trial had been altered, so that when the body meets again on July 7 other matters will be taken up.

JESSIE REED GIVEN ALIMONY

Vaudeville Actress Also Gets \$500 Fees From Louis Herzberg.

By the Associated Press.

NEW YORK, June 25.—Mrs. Louis Herzberg, known on the vaudeville stage as Jessie Reed, was granted \$25 a week temporary alimony and \$500 counsel fees today in her suit for divorce. She charged friends in Chicago told her they attended a wedding dinner given to Herzberg and Miss Dorothy Blake, also an actress.

Herzberg, in a counter suit, made charges against Miss Reed and Lou Tellegen, husband of Geraldine Farrar. Tellegen, in an affidavit, denied the charges.

LOSING FINGERS, BOY KILLS SELF

Victim of Dynamite Cap Explosion Took Life With Revolver.

By the Associated Press.

STEVENSON, Wash., June 25.—Joseph Hillier, 8 years old, lost two fingers Sunday in a dynamite cap explosion. His first words were: "This'll break mamma's heart." Today he is dead, having sent a bullet from a revolver through his body soon after being taken home. He recently passed the eighth grammar grade.

TEXT OF PRESIDENT'S APPEAL THAT LAWLESS DRINKING BE STOPPED AND THAT STATES MAKE DRY LAW EFFECTIVE

Following is the text of President Harding's discussion of prohibition, including an appeal to individuals to cease lawless drinking, from his speech on law enforcement at Denver yesterday:

My Countrymen: It has been said that "Of the making of books there is no end." Quite as truthfully it might be paraphrased, "Of the making of laws there is no end." We Americans undoubtedly hold all records for the making of a multiplicity of laws, state and national. If we were as assiduous about obeying and enforcing obedience to them as we are in demanding and exacting them, there would be no address you today to the general subject of law enforcement. We all recognize that to secure effective administration of the laws, to establish in the public mind an attitude of willing acceptance and obedience to law, is the most impressive mark of a civilized community.

Laws, of course, represent restrictions upon individual liberty, and in these very restrictions make liberty more secure. The individual surrenders something of his privilege to do as he pleases for the common good, and so organized civilization has to travel a long way before it came to be commonly accepted that even an unwieldy law ought to be enforced in orderly fashion, because such enforcement would insure its respect or modification, also in orderly fashion, if that were found desirable.

At this point it is worth while to raise a voice in protest against the vast volume of half-baked criticism that is constantly aimed against Americans, on the ground that they are alleged to be an undisciplined and lawless community. The criticism, of course, arises out of the fact that during the period of a very short national life, during which the currents of human affairs and interests have moved more rapidly than in any other period of history, we have been under the necessity to establish institutions, laws, modes of administration, which would meet not only the requirements of a new community but would permit adaptation to rapidly changing conditions. It comes, therefore, of the very nature of the thing that many nations that our liberty is a license, instead of guaranteed freedom under the law.

Older countries have had the privilege of developing laws and institutions slowly, gradually, painstakingly, through multiplied centuries in which change was commonly extremely slow. American history, on the other hand, has been a long-established European model not always adaptable to our requirements, and therefore necessitating many experiments in modification and readaptation. Moreover, we started our experiment just at the time when the old medieval order was being changed at high speed by the processes of the industrial and social revolution which marked emergence from the later middle ages into the onrush of modern industrialism, modern science and modern democratic procedures in government.

The founders of our republic were compelled to establish institutions here, in a time when their whole inheritance of intellectual, moral, political and industrial traditions was being wrecked by the most amazing revolution in the history of the world. The British society has known, in the circumstances, their achievement in laying the foundation, and our later one in building our present superstructure upon it, represents an accomplishment I believe without parallel. Thus viewed, I think we will find all justification for satisfaction in our progress thus far, and confidence in an assured future.

American Dual Sovereignty.

Our problems are the problems of a relatively new country, and of a new form of political organization, in a time of social flux. We shall not succeed if we attempt to solve them all at once; but no more shall we succeed if we assume to ignore their existence, to shut our eyes to the fact that they are before us. The very basis of our political establishment is the idea of a dual sovereignty, of the States and the Nation; the idea of concurrent authority and concurrent responsibility. That is so elemental in our system that to do away with it would amount to demolishing our whole scheme of government.

Certain functions have been imposed upon the National Government, while others have been reserved to the States. Between these two authorities there will always be unavoidable overlapping, like a twilight zone. Personally, I have never liked that phrase. I have regarded it as a peculiarly unfortunate and misleading description.

CHURCHES AGAIN ENTER THE 12-HOUR DAY CONTROVERSY

"When Steel Industry Employs Men 12 Hours a Day, It Challenges Churches," Says Report of Research Head.

PROPAGANDA HELD TO BE MISLEADING

The Rev. F. Ernest Johnson Points Out That There Is No Statement on Number Working Long Day.

By the Associated Press.

NEW YORK, June 26.—"When industry employs men 12 hours a day it is committing a moral trespass and challenges the churches in their own fields," declares the statement made by the Rev. F. Ernest Johnson, head of the research department of the Federal Council of Churches in making public a report on "The Twelve-Hour Day in the Steel Industry," a research bulletin on the long work day.

The research bulletin has been in preparation for months and is a compilation of reports of investigation into the conditions of the long day in the steel industry, and standing in conditions connected with the two-shift day.

Propaganda Misleading, He Says.

The Rev. Mr. Johnson states that the "part of the propaganda of the churches is necessary because of the prevalence of misleading propaganda in connection with the 12-hour day. He says, regarding the research bulletin:

"The entrance of the churches once again into the 12-hour day controversy means that we have been forced to take seriously the statement of the Steel Institute, which says that the American Iron and Steel Institute are not impressed with the weight of public opinion on this subject."

Reference to Public Opinion.

"It was assumed that the appointment of an investigating committee a year ago meant that the industry was about to yield to the urgent request of the President of the United States. It now appears that this action was only a gesture. We do not accept the Iron and Steel Institute's estimate of the public conscience on the 12-hour day. We believe the public has a strong conviction about it when brought face to face with the facts."

"I anticipate that it will be once more asserted that churches as such are not qualified for reporting on industrial problems and disputes. Yet the fact is that we are driven to the attempt by the prevalence of misleading propaganda on all sides of a controversy like this. The last contribution to this propaganda is the so-called 'analysis of the Inter-church World Movement Report on the Steel Strike,' by which Mr. Marshall Olds defends the 12-hour day. This volume, although it carries an introduction by a well-known writer on economic subjects and even a certificate of accuracy by a prominent firm of New York accountants, is teeming with errors and misstatements. Quotations are mutilated, statistics are garbled, facts are falsely reported. Notwithstanding this, the book apparently has been adopted by the United States Steel Corporation as its own defense, and has been freely circulated by Judge Gary, the chairman of the board."

Denies Churches Are Inaccurate.

"When economists and public accountants miss the mark so widely, churches are not likely to take very seriously the admonition to keep away from economic questions. The fact remains that the pronouncements of churches on the steel industry have been remarkably accurate compared with the absurdly misleading documents which the industry has circulated in its own defense."

"No line can be drawn between technical questions and moral questions. If industry objects that we churchmen are invading a technical realm when we discuss engineering problems, we must reply that when industry commits a moral trespass and challenges the churches in their own field."

"This pamphlet, however, is not the result of swivel-chair investigation. It is a collection of data from trained investigators. It represents an effort on the part of a church group to furnish the public with facts which the public has been encouraged to hope the steel industry would itself furnish."

Steel Men Refused Conference.

"When the manuscript was essentially complete it was presented to a high official of the United States Steel Corporation with the request that it be distributed to the steel industry."

"The 12-hour day problem, in brief, is a problem of providing three shifts of men to do the work now done in continuous operations by two shifts. It means more men and it means higher average wages rates, but we have found the Steel Institute's estimate that the three-shift system will mean an increase in cost of 15 per cent unsupported by the facts. Experience shows that, in general, men so greatly appreciate the added leisure that they will be willing to accept the arrangement in order to shorten their day. The change was actually accomplished without loss for production was increased. A similar achievement."

Galicizing of Saar Is Proving Most Difficult Task for French

Make-Up of League's Governing Commission Termed 'Crying Scandal'—'Meanness of Proceeding Exceeds Even Its Dishonesty,' Writer Declares.

The Post-Dispatch prints the second of a series of articles by a special correspondent of the Manchester Guardian, the New York World and Post-Dispatch on conditions in the Saar Valley.

This basin, of only 760 square miles, adjoins Lorraine and supplies coal for the Lorraine iron industry. The Versailles treaty placed the district under control of a League of Nations Commission. Part of this arrangement was a plebiscite after 15 years to determine the future allegiance of the Saar.

The second article tells how the Saar Governing Commission was so formed that it represents purely French interests, even the representative of the Saar itself being a tool of Paris. It is shown further that, as a result of this situation, the entire valley protested.

Special Correspondence of the Manchester Guardian, the New York World and the Post-Dispatch.

ESSEX, June 16.—Nobody can deny that the present constitution of the Governing Commission in the Saar territory is a crying scandal and a blot on the fair name of the league. The French member (and president) is M. Raul, an official from the immediate vicinity of M. Poincare, of whom there is little to say here, save that he is completely ignorant of the German language, and regards his mission as derived, not from Geneva, but from Paris.

The first "neutral" member is a Belgian—in other words, a second representative of France. He is never known to have held a vote different from that of M. Raul, on any question that arose, however trivial.

The second "neutral" is a Dane. Precisely the same remark may be applied to him, for by a scandalous application of the letter at the expense of the spirit of the treaty the council selected a Dane who has lived most of his life in Paris, to whom the language of Moliere is more familiar than that of Ibsen, and who was apparently recommended, not by his own, but by the Paris Government.

Cynicism in Appointment.

The surprising thing is that the Danish Government has never protested against this chicanery. Despite his name, Count Moltke is simply a third representative of France.

The Saarland Commissioner was, up to a few weeks ago, Dr. Hector, a creature of the French government, for whom his fellow countrymen have nothing but contempt. In other words, fourth representative of France.

His successor, appointed as the result of two years' agitation against Dr. Hector, who when the latter was found guilty in a public court of falsification and perjury, also is discredited and distrusted by the Saarlanders.

But even supposing his character and qualifications were admirable, could words be found strong enough to condemn the cynicism which apparently governs the French attitude toward the Saarlanders?

Waugh Only Popular Member.

Before dealing with the history of Dr. Hector a word must be devoted to the third "neutral," Mr. Waugh, who represents Canada. He is the one bright spot in the Saar, the one person in authority for whom the governed have any feeling of respect.

Unfortunately he is delegated to look after the finances of the territory and comes little into contact with the population.

Mr. Waugh holds in the Saar the honorable position held by the British Colonel Garrison in the Rhineland; he symbolizes for the unfortunate Saarlanders the existence of a certain degree of benevolence somewhere in the world, even if it is for the moment an impotent benevolence. For it is an open secret that Mr. Waugh constitutes a permanent minority of one at every meeting of the commission.

The public life of Dr. Hector began in May, 1919. The Burgomaster of Saarland having been expelled by the French authorities, the commanding General "instructed" the Saarland Town Council to elect Dr. Hector in his place. This the Town Council rather tamely consented to do. The session, however, was secret and it is not known what pressure was brought upon the Council.

Regarded as a Traitor.

On September 17, 1920, Her von Boch, the original Saarland Commissioner, resigned his post as a protest against the proceedings and methods of the commission. Dr. Hector was appointed in his place. There he remained.

Steel Corporation with the request that any inaccuracy be pointed out and that a statement of the manufacturers' side of the controversy be prepared for inclusion in the published document. The request was courteously received, but it was insisted that criticism would be submitted by the corporation only if it were to be printed without comment and without opportunity for us to have conference with the steel corporation officials on disputed points. It was the same old story—no conference. These conditions we could not accept.

The 12-Hour Day Problem.

The 12-hour day problem, in brief, is a problem of providing three shifts of men to do the work now done in continuous operations by two shifts. It means more men and it means higher average wages rates, but we have found the Steel Institute's estimate that the three-shift system will mean an increase in cost of 15 per cent unsupported by the facts. Experience shows that, in general, men so greatly appreciate the added leisure that they will be willing to accept the arrangement in order to shorten their day. The change was actually accomplished without loss for production was increased. A similar achievement."

CONTEST OVER STATE JUDICIARY SYSTEM RENEWED

Eleven Members of Committee Agree to Supplement All So Far Approved by Constitution Convention.

AGAINST CHANGES IN APPELLATE COURTS

Would Leave Trial Courts in Hands of Legislature and Create Administration Judicial Council.

By the Jefferson City Correspondent of the Post-Dispatch.

JEFFERSON CITY, June 26.—In a belated effort to break a prolonged deadlock in the constitutional convention over proposed revision of the judiciary system of the State, the Judiciary Committee of the convention yesterday filed a proposed substitute for all that the convention previously had adopted tentatively on the subject in committee of the whole.

Eleven members of the committee signed the substitute. A. H. Harrison of Steelville filed a minority report, and three members, Robert Lamar of Houston, Walter Higbee of Lancaster and John Lucas of Kansas City, being absent. According to J. A. Collett of Salisbury, chairman, the whole matter now will have to be fought out again.

Chief Stumbling Block.

The Judiciary system has been the principal stumbling block in the path of the convention's progress. For more than half of the delegates are lawyers, and each appears to have advised what to him is the ideal Judiciary system, but up to the present no one has been able to get a majority of the delegates to espouse his plan and stay with it. One court system after another has been adopted through the months, but the Judiciary report has been under consideration. There have been countless decisions and reconsiderations, as the attorneys have backed and filled before one idea and another, the other delegates falling in first on one side and then another.

Friday after the question had been knotted into another tangle, the Judiciary Committee asked for an hour of debate, and finally, after a noon yesterday reached ground on which 11 members agreed to stand.

These delegates contemplate holding the State Supreme and Appellate Courts practically as they now exist, without increasing or decreasing the size of either, leaving the creation of trial courts of general jurisdiction in the hands of the Legislature, and creation of an administration judicial council with large powers.

Plan for Creating Courts.

The delegates would allow the Legislature to classify courts with regard to population in establishing courts of general jurisdiction, which would enable the Legislature to put a different kind of court in practically each county, if it so desired, that having been the system under which the Legislature has established a separate code of statutes for each county, and counties of the State.

The report as drafted would allow courts now in existence to remain unless changed or abolished by law.

Instead of changing the number of Judges in the Supreme Court and the St. Louis Court of Appeals, the convention already has voted to do, the committee now would empower the judicial council, consisting of the Chief Justice of the Supreme Court, the presiding Judges of the three Courts of Appeals, the trial Judges selected by the Chief Justice, and the Attorney-General, to call in trial Judges to assist in the work of the higher courts when needed.

Proposal as to Chief Justice.

Election of one of the seven Judges of the Supreme Court as Chief Justice for his entire term of 10 years, instead of the present Judges to rotate that honor among themselves, is advocated, along with nomination of all candidates for judicial positions at a time separate from the election of other political candidates.

The new Judiciary report was agreed to by J. A. Collett of Salisbury, chairman; John T. Gilmore of Kansas City; A. T. Dunn of Jefferson City; Homer E. Culbreth of G. L. Zwick of St. Joseph; L. M. Henson of Poplar Bluff; E. M. Zevinsky of Linn; Mrs. M. E. Morrow of West Plains and N. F. Zimmer of St. Louis.

Harrison in his minority report adopts most of the decisions already reached by the convention in committee of the whole. He differs principally from the other members of the committee on the question of fixing jurisdiction for the inferior courts, taking the position that only change of the most serious sort could result if the inferior courts were turned loose to experiment with the circuit and other lower courts at will. Harrison also is a firm adherent of the Probate Court, which he believes should have written into the Constitution.

ATTENDANCE SESSION OF WORLD COURT

While at The Hague, Senator Will Attend Reception Given in His Honor by Polish Minister.

LIKELY TO GET LITTLE INFORMATION

Poland Asks for Permission to Intervene in Case Involving Closing of Kiel Canal to Munitions.

By FERDINAND TUBRY.

Special Correspondent of the Post-Dispatch and New York World.

PARIS, June 26.—Senator William Johnson is on his way from Paris to attend the Permanent Court of International Justice function. He has not really been attending conditions on the continuing case, but he can say, as he gets back home to campaign for continued isolation, that he has been to Europe.

In interviews the Senator has shown he is as certain as ever that the court is an institution to give moral support to the executors of the Versailles treaty. He will hardly have much first-hand information about the tribunal in a single day, when would decline to discuss it even with the Angel Gabriel.

To learn the workings of the World Court fully, a student should read quite a while steeped in the annals of Geneva. Ever since Poland came to Europe, Johnson has avoided the League of Nations headquarters.

The Senator will stay at the United States legation here and attend reception given in his honor by the Polish Minister. At a session of the court he will hear resumption of the Finnish-Russian dispute over Karelia. For the first time since Poland came to Europe, Johnson has avoided the League of Nations headquarters.

The American missed the spectacle yesterday of attorneys representing the principal allied Powers addressing the world tribunal, on which sat a German Judge, six war criminals and five colleagues from all the Powers. The case was Germany's refusal to permit munitions to pass through the Kiel Canal. It marked a new epoch. For the first time in history the disputants have agreed, according to the terms of the court statute, to accept the tribunal's decision as binding.

Suit Important to Poland.

The suit has a further intrinsic importance. If the court decides Germany can forbid transportation of material across her territory, it would handicap Poland seriously in any future conflict with Russia, the only other channel of supply munitions from France is through Germany.

Furthermore, this is the first occasion on which the court is interpreting the Versailles treaty, which allies claim compels Germany permit such transport.

The German Minister, Walter Meisinger, sat at the end of the tribunal next to the Swiss Judge, Huber. He was manifestly nervous in his position as the first German to be summoned to sit as a defendant with allied representatives.

Proceedings revolved about the question of permitting Poland's intervention as a third party. This was most amusing, for she was afraid Poland's claim under Article 63, which she had made known, in the circumstances, their achievement in laying the foundation, and our later one in building our present superstructure upon it, represents an accomplishment I believe without parallel. Thus viewed, I think we will find all justification for satisfaction in our progress thus far, and confidence in an assured future.

Poland Names Claims.

The Polish representative sprang surprises by waiving the claims under Article 62—it developed the Polish had objected. But he insisted Poland has a right to intervene under Article 63, as a signatory of the Versailles treaty. There is no doubt this view will be accepted.

One after another legal representatives of the allied Powers appeared before the court to sustain Poland's claim under Article 63. The British attorney to the Foreign Office, Sir Cecil Hurst, went out of his way to indicate his view that Poland would have had no right to intervene as she originally intended under Article 62. That claim, if successful, would have entitled her to a vote for this case.

One after another legal representatives of the allied Powers appeared to intervene. Then there was a call to the German representative, the former Reich Minister Schiffer, who twice demanded President Hindenburg's permission. Herr Schiffer was told Germany had decided to leave the case to the court without argument. Decision will be given Wednesday.

CHURCHES AGAIN ENTER THE 12-HOUR DAY CONTROVERSY

Continued From Page 15.
most is recorded for other establish-
ments.

A major difficulty in the way of installing three shifts would be overcome, as the present report shows, if the steel industry as a whole, would improve its labor policy. The provision of some method of conference and agreement and orderly negotiation over wages, hours and conditions of work, would

go far toward bringing about the co-operation necessary to a successful demonstration. So say competent engineers and so the experience of the Colorado Fuel and Iron Co. proves. We hold no brief for any particular type of collective bargaining machinery, but we are 100 per cent against a regime in which the men have no voice.

On Reduction of 12-Hour Men.

The data recorded in our bulletin are not complete since we do not know how many men are at the present time working 12 hours a day in the steel industry. The report of the American Iron and Steel Insti-

tute, given out May 25, while claiming credit for past efforts toward reduction in the number of 12-hour men, was strangely silent as to the present tendency in the industry.

The Iron and Steel Institute's extraordinary claims. If the 12-hour day is very disquieting. Is it possible that with the revival of business the steel corporation has abandoned all pretense at reducing the number of 12-hour workers?

The public is forced to the conclusion that, as has been pointed out before, any considerable reduction in the number of 12-hour men waits on a lessened demand for steel.

TEXT OF PRESIDENT'S
APPEAL THAT LAWLESS
DRINKING BE STOPPED
Continued From Page 15.

American people. There are some historical records regarding efforts of states to nullify national policies; but the spectacle of a state nullifying its own authority and asking the national sovereignty to take over an important part of its powers, is new. When the implications of this strange proposal are fully understood by people and parties devoted to preserving the rights of the states, the new nullificationists I venture to say, will discover that they have perpetrated what is likely to prove one of the historic blunders in political management.

I am making my appeal in this matter to the broadest and best sentiments of law-abiding Americans everywhere. We must recognize that there are some people on both sides of this question in whose mind it is absolutely paramount. Some would be willing to sacrifice every other consideration of policy in order to have their own way as to this one. This constitutes one of the most demoralizing factors in the situation. No Deviation for Reform.

It was very generally believed that the adoption of the constitutional amendment would take the question out of politics. Thus far it has not done so, though I venture to predict that neither of the great parties will see the time, within the lives of any who are now voting citizens, when it will declare openly for the repeal of the eighteenth amendment. But despite all that, the question is kept in politics because of the almost fanatical urgency of the minority of extremists on both sides. Unless, through the recognition and acceptance of the situation in its true light, through the effective enforcement of the law by all the constituted authorities and with the acquiescence of the clearly dominant public opinion of the country, the question is definitely removed from the domain of political action, it will continue a demoralizing element in our whole public life. It will be a permanent bar to the wise determination of many issues utterly unrelated to the liquor question. It will be the means of encouraging disrespect for many laws. It will bring disrepute upon our community, and be pointed to, as justifying the charges that we are a nation of hypocrites. There can be no issue in this land paramount to that of enforcement of the law.

It is easy to understand the conditions out of which much unrest has developed, but it is not easy to comprehend so much of complacency amid a developing peril. I want to give warning against that peril.

Contempt for Law.
Many citizens, not teetotalers in their habits, lawfully acquired stores of private stocks in anticipation of prohibition, pending the ratification of the amendment and the enactment of the regulatory law. Many others have had no scruple in seeking supplies from those who vend in defiance of the law. The latter practice is rather too costly to be indulged by the masses, so there are literally American millions who resent the lawful possession of the few, the lawless practices of a few more, and rebel against the denial to the vast majority. Universal prohibition in the United States would occasion far less discontent than partial prohibition and partial indulgence.

It is partial indulgence which challenges the majesty of law, but the greater crime is the disparagement of the moral fiber of the Republic. The resentful millions have the example of law defiance by those who can afford to buy, and are reckless enough to take the risk, and there is imputed a contempt for law which may some day find expression in far more serious form.

I do not see how any citizen who cherishes the protection of law in organized society may feel himself secure when he himself is the example of contempt for law. Clearly there is a call for awakened consciences and awakened realization of true self-interest on the part of the few who will themselves suffer most while reverence for law is forgotten and passion is expressed in destructive lawlessness. Ours must be a law-abiding Republic, and reverence and obedience must spring from the influence of the leaders among men, as well as obedience from the humblest citizen, else the temple will collapse.

Whatever satisfaction there may be in indulgence, whatever objection there is to the so-called invasion of personal liberty, neither counts when the supremacy of law and the stability of our institutions are menaced. With all good intention the majority sentiment of the United States has sought by law to remove strong drink as a curse upon the American citizen, but ours is a larger problem now to remove lawless drinking as a menace to the Republic itself.

The concluding portion of the address was another plea for American participation in the International Court of Justice.

Every seeker for health should be interested in this new Bran food

PHYSICIANS and dieticians everywhere have established the health value of bran; but thousands of people who need such a helpful food, have found ordinary bran unpalatable. Now everybody can have Post's Bran Flakes with Other Parts of Wheat—the new bran cereal that really *tastes good!*

Post's Bran Flakes is so made as to retain with the bran other valuable portions of the wheat berry, producing a delightful food that is nutritious as well as laxative. It stimulates natural action, without any irritating effect.

Practically the full vitamin content of the wheat is preserved in this remarkable food.

Post's Bran Flakes is ready to eat, with milk or cream; it may also be served with sliced or stewed fruit.

As part of your regular diet, you'll enjoy Post's Bran Flakes. Crisp, tasty, and full of flavor and nourishment, it makes the building and maintaining of health an appetite joy.

A generous package from your grocer for 15 cents.

DAVIS FAVORS SIMPLIFIED SYSTEM OF NATURALIZATION

Secretary of Labor, Pointing to Smuggling of Immigrants, Suggests Enrollment Plan.

CHICAGO, June 26.—Enrollment of alien immigrants and the adoption of a simplified naturalization system whereby they may all become American citizens was advocated by Secretary of Labor Davis in an address today before the convention of Winchester clubs. The plan was designed to prevent the smuggling of undesirable aliens into the country, he said.

Illicit immigrants numbering 100 a day are coming into the country surreptitiously, Secretary Davis stated. Smugglers exact a fee of \$500 or more a head, he declared.

"If we put the entire army and navy at the task I hardly believe we could stop this trade," the secretary said. "But there is a way to stop it, and that is to make it utterly useless for any alien to enter this country illegally."

"To this end I propose that the Federal Government enroll every alien upon his arrival and issue to him an identification card that will establish his right to be here. Over a period of years I would provide for an annual census of these aliens in order that we might offer to those legally here every opportunity to learn that America means, what its traditions are, and what life in America has to offer them. I would see that they were given every chance to become good American citizens and if they proved worthy I would accept them through a simplified naturalization plan. If they proved unworthy I would send them whence they came."

HAWES DEPRECATES HASTY ACTION ON PROPOSED LAWS

Congressman Advises Civic Bodies to Hear Both Sides Before Indorsing Bills.

Civic organizations should not adopt resolutions concerning proposed legislation without having discussions of both sides of the question or ascertaining whether the proposed law would be constitutional, Congressman Hawes said yesterday before the Political Information Bureau of the St. Louis League of Women Voters.

He stated that the House of Representatives was greatly handicapped by lack of opportunity to debate bills. There were 30,000 bills introduced in the last session of the House, he said, adding that bills which were debated for days in the Senate were disposed of with about 40 minutes of argument in the House.

The Dyer antilynching bill, which Hawes opposed in Congress, he characterized as taking from the states their right to deal with the crime of murder and placing that authority in the hands of the Federal Government. Hawes condemned the seniority rule which gives Congressmen of long service preference in committee posts, regardless of ability.

CORRESPONDENCE SCHOOL

DETECTIVE FINED \$100

Negro "Graduate" With Badge and Full Instructions Arrested for Carrying Concealed Weapon.

Albus Brown, "Private Detective No. 1," a negro of 2705 Lucas avenue, graduate of a correspondence school for the suppression of crime, was fined \$100 today by Circuit Judge Falkenhainer on a plea of guilty to a charge of carrying a concealed weapon.

It was the ambition of Albus to rid St. Louis of gangsters, burglars and sundry criminals, and so he enrolled in the correspondence school for training as a detective. In return for the enrollment fee he received a badge bearing the inscription, "Albus Brown, Private Detective No. 1," together with full instructions for detecting criminals. He thereupon armed himself with a revolver and set forth upon his quest.

Two real city detectives observed the airs of Albus at Twenty-first street and Washington avenue May 16 last and abruptly ended his career as a detective.

NEW WARD CASE INQUIRY

By the Associated Press. WHITE PLAINS, N. Y., June 26.—An extraordinary grand jury, authorized by Gov. Smith, yesterday began delving for the story back of the slaying by Walter S. Ward, wealthy baker's son, in May, 1922, of Clarence Peters, a former marine, at Haverhill, Mass. Three witnesses were heard.

Deputy Attorney-General Chambers announced that he had subpoenaed certain cablegrams and telegrams exchanged between Ward's brother, Ralph, and their father, George S. Ward, president of the Ward Baking Co. The appellate division of the Supreme Court recently enjoined Chambers from using the messages in his preliminary inquiry, which resulted in the calling of a grand jury to hear for the second time evidence against Ward. Ward, who admitted slaying Peters, but claimed he shot in self-defense after Peters had menaced him in an argument over the payment by Ward of blackmail, was once indicted on charge of first degree murder, but the indictment was dismissed after two District Attorneys had refused to place him on trial on the ground that they lacked evidence to convict.

Illinois Wheat Awaits Shockers. Hundreds of acres of wheat, cut in St. Clair County, waits on farm labor. County Farm Advisor Tillman of the St. Clair County Farm Bureau sent out a call for help yesterday, stating that farmers face a big loss unless the cut wheat is shocked.

Just a second when the hammer hits your finger nail instead of the other nail.

**LAWYERS TO VOTE
ON SITE FOR NEW
COURTHOUSE SOON**

Referendum Blanks to Be
Mailed by Bar Associa-
tion Within Two or Three
Days.

A referendum ballot seeking the
views of lawyers on the sites pro-
posed for the new courthouse, to be
erected from proceeds of a \$4,000,-
000 bond issue, will be sent out by
the Bar Association within two or
three days to between 1400 and 1500
attorneys practicing in the city.

This ballot will not determine the
site, but is intended only to indicate
the sentiment of members of the
bar. W. L. Sturdevant, president of
the Bar Association, and a member
of the Citizens' Supervisory Commit-
tee on bond issue expenditures, said
today. The way in which each in-
dividual casts his vote will not be
revealed in the count, Sturdevant
said.

Designation of the site is in the
hands of the Board of Aldermen, ac-
cording to a legal opinion by the
City Counselor. A special committee
of five Aldermen was appointed to
make recommendations, and held
two public hearings, but had not
filed a report when the board ad-
journed recently until Sept. 14.

Two Opposing Interests.

A controversy over the site of the
courthouse has been in progress
since passage of the \$37,000,000
bond issue for public improvements
last February, including the court-
house bond issue. The site first pro-
posed was the block bounded by
Twelfth boulevard, Market, Eleventh
and Chestnut streets, which will
front on the proposed Memorial
Plaza, a bond issue project. The
city already owns about two-thirds
of this block and the remaining one-
third is to be condemned as part of
the plaza, and paid for out of the
\$6,000,000 plaza bond issue.

City officials, the City Plan Com-
mission, and numerous organizations
have recommended selection of the
site adjacent to the plaza.

Property owners in the eastern
end of the downtown section, head-
ed by the City Improvement Associa-
tion, have urged selection of a
site adjacent to the present court-
house, which occupies a block bound-
ed by Broadway, Market, Fourth
and Chestnut streets. The block south
of the courthouse has been suggested.

Arguments for Broadway Site.
They declare such a site would be
most convenient for lawyers and
others using the building, that it
would centralize the courts, and
contain removal of the courthouse
westward would depreciate property
values in the eastern section of the
business district.

Briefs on the merits of the two
locations will accompany the ballots
when sent out by the Bar Associa-
tion. A brief supporting the Broad-
way and Market location is being
prepared by the City Improvement
Association, and one in support of
the site adjacent to the plaza was
completed yesterday by E. J. Rus-
sell, chairman of the City Plan Com-
mission, and chairman of the Gen-
eral Council on Civic Needs.

The lawyers will be requested to
vote for one of the two sites, or upon
a third proposition suggesting re-
location of the building on the site of
the present Courthouse.

Arguments for Plaza Site.
Referring to the Broadway and
Market site as the "eastern" and the
site adjacent to the proposed plaza
as the "western," Russell includes
in his brief the following arguments
for the "western" site:

The western site is more accessible
and will predominate in convenience
for 90 per cent of the people. The
center of the retail section is consid-
ered to be at Eighth and Olive
streets, and the western site is one
block nearer this point than the
eastern site. Four vehicles approach
the western to one approaching the
eastern and three street car passen-
gers approach the western against
each one approaching the eastern
site.

The Courthouse would be part of a
group of public buildings, if placed
on the western site.

Advocates of the eastern site claim
it should be selected to maintain
property values, but have few facts
to sustain this argument, as build-
ings in the immediate vicinity of the
present Courthouse have depreciated
in value, although the Courthouse
has stood there many years. An-
other Courthouse placed alongside
would not materially change this
condition.

Present Location Precluded.
The bond proposition voted pro-
vided for acquisition of a site and
erection of another Courthouse,
which precludes the possibility of
using the present Courthouse.

That a single public building does
not enhance the value of adjacent
property is clearly shown by condi-
tion of property adjacent to the pre-
sent City Hall and Municipal
Courts Building, as well as the pre-
sent Courthouse.

Erection of the Courthouse on the
western site was recommended by
the City Plan Commission after a
careful study and survey of the city's
needs.

In closing his brief, Russell states,
"one point deserves emphasis in con-
sideration of this problem, and that
is, what view is to prevail—the sud-
denly created one based on self-in-

terest—or one that has been studied
impartially for a number of years
by a body of men who have the in-
terest of the entire city at heart?"

*Return of the ballots within three
days will be requested by the Bar
Association, to enable an early count
of the vote.

The Helping Hand for Housework

Your best helper for all clean-
ing is Old Dutch Cleanser because
it is so quick and active. It light-
ens work, and is most economical.
Furthermore—it's safe. So you
may be sure that everything you clean with
it is absolutely clean and therefore hygienic
and sanitary.

The secret of Old Dutch efficiency
and economy lies in the character of its fine
particles. They are flat-shaped, made that way
by nature. Free from hard, jagged grit, which
scratches the surface, grinds in the dirt, and
cannot clean efficiently. Old Dutch particles
do not scratch; they erase the dirt. Being flat,
they offer more cleaning surface, and do a
greater amount of cleaning. That is why Old
Dutch does more and better work than any-
thing else you can buy.

Use it for all cleaning—floors, sinks,
utensils, walls, bathtubs, churns, separators,
milk pails.

**There is nothing else
like Old Dutch**

Found Dead; Gas Jets Open.
Louis Mattmuller, 58 years old,
3324 Lemp avenue, who had been ill
for two years, was found dead in the
kitchen of his home yesterday, his
head resting on a pillow on a table.
Two gas jets on the kitchen range
were opened, but not burning.

DAVE SILVERMAN TO CONDUCT ORCHESTRA FOR RADIO PROGRAM

Interesting Program Arranged at Grand Central Theater—K S D

The Grand Central theater program to be broadcast tonight will be under the direction of a "guest conductor," Dave Silverman, who will conduct the Grand Central Concert Orchestra this week in the absence of Gene Rodemich, its regular conductor. An interesting program has been arranged. Silverman is conductor at the West End Lyric. The concert also will include a special organ number played by Arthur L. Utt, and a vocal feature presented by Bartram and Saxton.

CLEVELAND MOTORISTS ASKED TO AVOID FOREST FIRE RISK

Matches, Cigar Stubs and Smoldering Camp Fires Blamed—"Clean Up As You Go."

CLEVELAND, June 25.—One hundred thousands motorists of Cuyahoga County have been asked by the Cleveland Automobile Club to join in a movement to keep camp and picnic sites clean and undefaced and to protect the countryside from the danger of fire.

In a statement the club suggests that the motorists adopt the slogan, "Clean up as you go." It is pointed out that in recent years there has been a growing tendency to litter the countryside with rubbish, especially during the warm months. "Not only is the natural beauty of the countryside desecrated," the club says, "but there are even more serious aspects of the situation. More than 1000 forest fires were started last year by motorists who left camp fires burning or threw lighted cigars, cigars or matches into grass at the roadside."

OPERA BY FRENCH NAVAL COMMANDER TO BE GIVEN

Correspondence of the Post-Dispatch. PARIS, June 13.—The Opera-Comique has just added to its repertory the opera "Polypheme," composed by the commander of a French naval destroyer flotilla, Captain Jean Crase.

The Captain is not only the hero of several exploits in the Adriatic during the war, which won him the French and Italian War Crosses and the Legion of Honor, but he is also the winner of a 10,000 franc music prize offered by the City of Paris. He managed to combine his love of the sea and his love of music by having a piano in the cabin of his destroyer, and writing an opera while afloat during the war.

SUMMER SCHEDULE FOR STORES

Retail Establishments Open at 8:30 A. M. and Close at 5 P. M. Department stores and specialty shops which are members of the Associated Retailers of St. Louis, began yesterday opening at 8:30 a. m. and closing at 5 p. m. on their summer schedule. On Saturdays the stores will remain open until 5:30 p. m.

Heretofore the stores have been opening at 9 a. m. and closing at 5:30 p. m. This schedule will remain in effect until the week of July 14, when the stores will begin closing all day on Saturday for a period of six weeks. This custom was inaugurated several years ago and since has been followed very largely by retail stores in other cities.

WANTED

The name of a dealer who says that any imitation is like Palmolive Soap. Not for prosecution, but to correct him—for the good of all concerned.

Common soaps are colored, shaped and named to make folks think they get Palmolive virtues in them. But they do not bring what you seek—what you buy Palmolive for. They are nothing like Palmolive.

Stop and think. There are countless soaps. But Palmolive has become the leading toilet soap of the world.

It brings envied complexions. Then users tell others about it. Millions of beauty lovers now employ it daily. All because of a palm and olive oil blend which our experts alone have perfected.

Now some makers try to deceive you. They make soaps to look like Palmolive, with a name of some similar sound. Just because women prize Palmolive. They want the benefits it brings. So the way to sell you common soap is to make it seem Palmolive.

If Palmolive is the soap you want, be careful that you get it. This is the soap that won world-wide fame by fostering fine complexions.

This is the quality soap—a 25-cent quality—which volume produces for 10 cents, so all folks may enjoy it.

This is the oil blend that does for your skin what every woman wants. If you ever find a better soap, get it. A soft, rosy skin is worth any price you pay.

But avoid deception. Don't buy an ordinary soap made to look or to sound like Palmolive. That cheats you of something you prize. Look at the name and wrapper.

The Japanese Way to Remove Corns
Doesn't Hurt a Bit—Easy and Simple

The Magic Touch of Ice-Mint Does It. Just a Touch Stops Soreness. The Corn or Callous Shrivels and Lifts Off. Try It. Your Feet Will Feel Cool and Fine.

Just a touch of ice-mint and your corns and calluses will vanish, soreness disappears and you can dance all night or walk all day and your corns won't hurt. No matter what you have, how many times you have been disappointed here is a real cure for you at last. From the very second that ice-mint touches your corn, your poor aching feet will feel so cool, so comfortable that you will be high with relief. Think of it; just a little touch of that delightful, cooling ice-mint and real foot joy is yours. No matter how old or

REPORTS THEFT OF
DIAMONDS WORTH \$1800

Widow Tells of Being Awakened by Burglar and Forced to Remove Her Rings.

Mrs. Harry Blair, a widow, of 5055 Ridge avenue, summoned policemen to her home at 11 o'clock last night and reported that she had been robbed of three diamond rings which she valued at \$1800.

"I had just fallen asleep," she said, "when I was awakened by the rays of a flashlight in my face. A youth about 19 or 20 held a revolver against my cheek. I screamed and he ordered me to be quiet. He said all he wanted was my rings which I had upon my fingers. I removed them and handed them over to him. I was wearing four rings, but in my nervousness I dropped one. He did not pick it up.

WHIPPING BOSS' TRIAL BEGUN

Defendant Accused of Murder in Boy's Death in Florida.

By the Associated Press.

LAKE CITY, Fla., June 26.—Trial of Walter Higginbotham, former convict camp whipping boss, on a charge of murder in the first degree in connection with the death of Martin Tabert of North Dakota, opened here today when the selection of a jury began.

A panel of 84 jurors has been called.

John Schmolli Hurt in Fall.

Circuit Clerk John Schmolli is confined to his home at 3826 Utah place with an injury to his right knee, resulting when he slipped and fell on the steps at the entrance to the St. Louis Club, 3663 Lindell boulevard, last Thursday afternoon, while waiting to take part in President Harding's parade. The injury at first seemed slight, but Sunday it was found that he had strained several ligaments. By advice of his physician he is remaining quiet for a few days to give the injury a chance to heal.

Just 2 minutes and my jelly is all done

Just 2 to 3 minutes' boiling and your jelly is ready to put into the glasses. And with LEO'S PURE FRUIT PECTIN it is no longer necessary to worry about whether your jams and jellies will be a success.

Now all the uncertainty and worry—the long hours in a hot kitchen—the possibility of your jelly not "jelling"—your jams burning—all these are done away with.

Instead, in just an instant, your delicious, clear, firm jelly is in the glass, cooling, with all the delightful fruit flavor retained.

Pure as the Fruit From Which It Is Made

Leo's PURE FRUIT PECTIN is a pure fruit product combined with acidified sugars—nothing more—absolutely pure and wholesome.

Now, simply by adding Leo's Pectin, you can make jelly of all fruit juices. The taste and color are not changed in the slightest.

Saves Sugar in Making Jelly

You use less sugar when LEO'S PURE FRUIT PECTIN is used. Besides, you get half again as much product. The rich fruit flavors are not boiled away. The 25c package makes 70 ounces or 10 full glasses of jelly.

If by chance your grocer doesn't carry LEO'S, send 25c for a full package, postage paid, and we'll see that he carries it hereafter.

LEO PECTIN CO., St. Joseph, Mo.

LEO'S
PURE FRUIT PECTIN
Will jell any fruit juice

Strawberry Jam

Crush 1 quart strawberries. Place 2 cups crushed fruit and 1 cup water in large preserving kettle. Mix in at once 1 package LEO'S PECTIN. Stir while heating. Bring to brisk boil; then add 3 level cups granulated sugar. Stir vigorously until sugar dissolves. Bring again to good strong boil and boil 3 minutes. Remove from fire; cool 2 minutes. Skim and pour into glasses.

Cherry Jelly

Put 1 pint of cherry juice that has been boiled 10 minutes into kettle. Mix in at once 1 package LEO'S PECTIN. Stir while heating. Bring to brisk boil. Add 2 rounded cups sugar. Bring again to vigorous boil and then boil 3 to 5 minutes, depending on fire. Remove from fire and pour into glasses.

Raspberry Jelly

Cover 1 quart of raspberries with 1 pint water. Boil 10 minutes, replacing the water lost by boiling. Strain. Place 1 pint of juice into kettle. Add 1 package LEO'S PECTIN. Stir while bringing to boil. Add 2 rounded cups sugar. Bring again to vigorous boil and boil from 3 to 5 minutes. Remove from fire, skim and pour into glasses.

Pineapple Jam

Use fully ripened fruit and put through food chopper. Place 2 cups fruit with 1 cup water in preserving kettle. Mix in 1 package LEO'S PECTIN. Stir while bringing to boil. Boil 3 minutes. Add 3 level cups sugar. Stir vigorously until sugar dissolves. Bring again to brisk boil and boil 3 minutes. Remove from fire, skim and pour into glasses.

The Near Northland

—happy answer to Summer's big problem, for in Michigan and Wisconsin, gemmed with countless pine-girt lakes and cooled by the nation's greatest inland waters, is an ideal Vacationland close to your door.

Summer Joys at a Bargain

Low Alton round-trip fares make a vacation in this beautiful National Playground possible for every family. Ask D. M. McNamara, General Agent, Passenger Department, Chicago & Alton R. R., 325 Boatmen's Bank Building, to mail you copy of the 1923 Alton Vacation Folder, which tells of hundreds of cottages, summer camps and hotels only a night away from St. Louis, where you can live as comfortably and as economically as at home.

Alton Service to the Cool Northland

The Prairie State Express, leaving St. Louis daily at 8:45 a. m., carries a through sleeper to the famous Michigan North Coast resort region every week day. The Fast Mail, leaving daily except Sunday, connects at Chicago with early morning trains to all Northern Michigan and Wisconsin vacation spots.

BROWNS O, INDIANS 1, AFTER 3 INNINGS: DAVIS OPPOSES UHLE

By Ed Bang,
Sports Editor, the Cleveland News.

CLEVELAND, June 26.—"Dixie" Davis was Manager Pohl's selection to pitch the Browns to the .500 mark in the final game of the series with the Indians today. George Uhle was Davis' opponent.

After today's contest the Browns will return home to open a series with the Detroit Tigers Thursday. A running account of the game follows:

FIRST INNING.

BROWNS—Tobin flied to Jamieson. Wamby threw out Robertson. Wamby also threw out Williams. NO RUNS.

CLEVELAND—Jamieson walked. Wamby, attempting to sacrifice, popped to Davis. Speaker fouled to Seaver. Brainerd flied to Gerber. NO RUNS.

SECOND INNING.

BROWNS—Jacobson fanned. McManus also fanned. Gerber flied to Jamieson. NO RUNS.

CLEVELAND—Summa lined to Gerber. Sewell doubled off the wall in right. Lantke walked. O'Neill singled to right, scoring Sewell. Uhle flied to Williams. Jamieson grounded to Gerber. ONE RUN.

THIRD INNING.

BROWNS—Lantke threw out Seaver. Schleibner walked. Davis was called out on strikes. Tobin fouled Schleibner. Wamby to Sewell. NO RUNS.

CLEVELAND—Wamby fanned. Speaker flied to Williams. Jacobson took Brainerd's fly. NO RUNS.

MISS ALEXA STIRLING IS LOW WITH AN 86

By the Associated Press.
BUFFALO, N. Y., June 26.—Miss Alexa Stirling of New York, former title holder, today led the qualifiers in the women's invitation golf tournament over the course of the Buffalo Country Club. She turned in a card of 84. Miss Glenn Collet of Providence, R. I., was second with 85. Mrs. F. C. Latta of Chicago, former title holder, was third with 86. Mrs. F. C. Latta of Chicago, former title holder, was third with 86. Mrs. F. C. Latta of Chicago, former title holder, was third with 86.

BABE RUTH REGISTERS PURCHASE OF LAND

CAMBRIDGE, Mass., June 26.—George H. "Babe" Ruth, former hitter and Sudbury farmer, appeared at the Registry of Deeds here today and so disinterested the attention of large corps of stenographers that business was almost stopped. Papers were passed whereby he became the owner of two large parcels of land adjoining his farm.

HAWAIIAN DAVIS CUP TEAM DUE JULY 3

By the Associated Press.
NEW YORK, June 26.—The Hawaiian Davis Cup tennis team, which will play Australia in a first round American zone match at Orange, N. J., beginning July 24, is expected to reach San Francisco July 2, according to a cable dispatch received today by the United States Lawn Tennis Association.

How Would It Do for the Cards to Attend the Municipal Opera and Get Acquainted With the Bat?

Third \$100,000 Dempsey Purse Is Due July 2

Champion Expected to Take a Chance if Money Is Not Ready on Schedule.

BACK RESUMES TRAINING

Hard Work Scheduled in Final Preparation for Gibbons Bout.

GREAT FALLS, Mont., June 26.—Although only five days remain before the third and final \$100,000 on the \$300,000 guarantee is due Jack Dempsey, not a peep has been made by the bout promoters regarding the forthcoming cash. Some time ago it was said the money would be paid probably a week in advance.

However, Great Falls men who have dug into their pockets to make the first and second payments of Dempsey's purse said today the cash would be seen through and it was expected the final installment of the purse would be paid the latter part of this week.

While Tommy Gibbons, the challenger, was announcing he would not fight Dempsey if he only got a postscript, speculations were being made as to how Dempsey and his manager, Jack Kearns, would act if the money were not paid as promised in the bout articles on July 2.

Likely to Take Chance. In spite of the reputation Kearns has for getting the dough it was the general opinion he would not pack up and leave Montana 48 hours before the bout. Those close to both Dempsey and Kearns said the champion would defend his title July 4, taking a chance upon getting all money due him.

A survey of the financial situation showed it was generally felt the money would be paid as scheduled.

The only pessimistic comments were that unless positive announcements were made soon regarding Dempsey's appearance, attendance at the fight would be deeply cut, leaving a wide mouthed sack for some one to hold.

Dempsey Resumes Training. GREAT FALLS, Mont., June 26.—After a day of rest, spent visiting friends in town and attending a movie, Jack Dempsey resumed training at his camp here today to condition himself for his 15-round bout against Tommy Gibbons in the big wooden bowl at Shelby July 4.

Dempsey weighed 196 pounds today, but appeared trim and fit. His cheeks actually were hollow. The champion's chest still looks a bit heavy, as do his legs.

The heavy king looked today as he probably will when he faces Gibbons. He won't do more than a day or two of heavy training before starting to slow up his schedule. His program is not intensive enough to expect he will lose any weight which will not be regained by a three-day rest preceding the bout.

Dempsey was in good spirits today, exhibiting none of the temper a boxer is supposed to have when in condition. The champion romped like a boy and showed no strain of a month in training camp.

"One reason I'm feeling so good is that I'm not worried," said Dempsey. "I'm a better boxer than I was when I met Willard or Carpenter. Not boasting, I'm somewhat of a hitter and also what they call a finished boxer today. The next few days with light, fast sparring partners will put me in just the shape I want to be to win from Gibbons."

By Davis J. Walsh.

SHELBY, Mont., June 26.—A chance remark, dropped in the presence of the writer today by a man whose index finger flutters on the local pulse, developed the interesting fact that the sum of \$75,000 represents the actual cash taken in to date by the promoters of the Dempsey-Gibbons half-million dollar dream. It was the first direct information that has been obtained on the matter of ticket sales, this secret having been guarded with the jealous care of a mother for her first born.

From another source, equally reliable, we have been assured that the bout will take place as scheduled, although contrary reports have been very active during the last 24 hours. These reports purported to indicate that the final installment of \$100,000 covering Dempsey's guarantee, would be allowed to go by default and the entire enterprise dropped with the alacrity of one unhanding a red-headed stove lid. Our information is quite to the contrary.

It is to the effect that money will be paid when due and the fight put on, although actual information as to just how this desirable condition may be hastened is a bit vague. The Great Northern Railroad and the capitalists of Great Falls seem to have qualified for the martyr role that will make Montana safe for the padded knuckle.

In other words, the hot sports of the writer today by a man whose index finger flutters on the local pulse, developed the interesting fact that the sum of \$75,000 represents the actual cash taken in to date by the promoters of the Dempsey-Gibbons half-million dollar dream.

Mehlhorn Strokes New North Hills West Course in 68

Record Established in First Round of Links Is Expected to Stand for Years.

Bill Mehlhorn, North Hills professional, who will carry St. Louis' hopes in the National open golf championship at Inwood, L. I., next month, established what is expected to remain a course record for many years when he stroked the west course at North Hills yesterday afternoon in 68.

The course was just opened and Mehlhorn was one of the first golfers to play over the 18 holes. He went out in 35 and came back in 33 strokes.

The first official round of the course was made by M. T. Patterson and Frank Hawley, who turned in 72's. Patterson was out in 48 and back in 44 and Hawley had 44-48.

The official opening of the course will be when the clubhouse has been completed. Mehlhorn's score was made without any spectacular shooting. He took two putts on each of 15 greens and one on each of three. He was hitting the ball straight and getting good distance. The North Hills greens are in excellent condition and the fairways are so smooth and the turf so good that it is difficult to realize that the building of the course was begun last summer.

On Sunday Mehlhorn stroked Glen Echo in 74. That score and his 68 of yesterday give him eight rounds of golf, the last eight he has played, in an aggregate which is four under four. That record makes Mehlhorn a likely candidate for national golf honors.

He will depart for New York Thursday to get in some practice over the championship course. It will be the first time since Jim Barnes left Sunset that the St. Louis district has had an excellent chance to win the U. S. open crown.

McTigue Outpointed By Tom Loughran

By the Associated Press. PHILADELPHIA, June 26.—Mike McTigue, in his first ring appearance since he won the light-heavyweight championship from Battling Siki in Dublin, left anything but a favorable impression with local fight fans after his bout last night with Tommy Loughran of Philadelphia. In the opinion of sports writers at the ringside, Loughran clearly outpointed the champion in all but two of the eight rounds. Whether McTigue put forth his best efforts was a question freely discussed today by the fans.

Except in the sixth and seventh rounds, the titleholder appeared awkward and listless and was driven around the ring by the Philadelphia, who put blows to body and head. Although Loughran landed nearly twice as many punches as McTigue, but few of his blows had a telling effect. At one point Loughran had the champion groggy, but he soon rallied.

The first official round of the course was made by M. T. Patterson and Frank Hawley, who turned in 72's. Patterson was out in 48 and back in 44 and Hawley had 44-48.

The official opening of the course will be when the clubhouse has been completed. Mehlhorn

FIRE DEPARTMENT CHANGES SUGGESTED

Chamber of Commerce Committee Recommends Building Program for 1924.

Recommendations proposing re-building of four engine houses of the fire department, erection of an engine house in Southhampton, and dissolution of one downtown engine company, as part of the 1924 program for the Fire Department, are contained in a subcommittee's report to the Fire Prevention Committee of the Chamber of Commerce, forwarded today to Fire Chief Foster.

The report, made by Baxter L. Bond, a civil engineer, advocates that engine houses No. 17 at 3220 Easton avenue, No. 18 at 411 South Broadway, and No. 29 at 4551 North Broadway, be rebuilt on their present sites. The Supervisory Committee for the Bond issue has already recommended the new building for Engine House No. 17.

Would Abolish Engine House. Engine Co. No. 13 at 1615 North Eleventh street is recommended dissolved, its members to be apportioned among other companies where most needed. The committee favors the sale of the engine house, to the end that the money thus obtained may be used for fire department items not covered by the \$775,500 bond issue appropriation, if such use of the money is legal. Selection of the south hampton site is to be determined later.

New equipment recommended to be purchased for next year includes six pumping engines, two aerial trucks and two city service trucks.

Safety Council Takes Up Fire Hazards With McKelvey

The St. Louis Safety Council has written to Director McKelvey of the Department of Public Safety, asking that school buildings, hospitals and other institutional buildings be inspected to make sure that they conform to standard modern requirements as to fire escapes and other safety provisions. The recent school-house fire at Cleveland, S. C., which was attended by loss of life, is cited as showing the need for such precautions.

Director McKelvey said the inspection of hospitals and other institutions, public and private, had been thoroughly attended to, but that under State laws, the Board of Education has jurisdiction over school buildings in use, though the City Building Department has authority over those in course of construction.

McKelvey has ordered the owners of Griggs' Hall at the southeast corner of Tenth and Market streets, to remove immediately a metal cornice projecting three and one-half feet from the roof, which is deemed unsafe. The fall of a cornice on a building at Sixth street and Washington avenue recently caused loss of life.

**\$351,718 LOST LAST SEASON
ON CIVIC OPERA IN CHICAGO**

About 200 Guarantors to Be Called Upon to Pay 70 Per Cent of Amount They Guaranteed.

CHICAGO, June 24.—Ten weeks of civic opera in Chicago last season were produced at a net loss of \$351,718.58, according to the first annual report of the Chicago Civic Opera Co., made public yesterday. Despite this loss the season was declared to be the most successful ever held in Chicago.

The loss, coming from a total expenditure of \$1,235,925.70 and receipts of \$884,207.12 for the 10 weeks in Chicago and three weeks road tour, will be made up by about 200 guarantors, who will be called upon to pay approximately 70 per cent of the amount they guaranteed at the outset of the season.

With the report came the announcement of the re-election of Samuel Insull as president; Charles G. Dawes, vice president; L. B. Kupperman, treasurer; Stanley Field, secretary and Mrs. Arthur Meeker to fill a vacancy on the board of trustees.

Plans now are being made for the 1923-24 season, which will be extended to 11½ weeks, with at least 45 performances. Opera will be sung in each of the languages in which opera is popularly presented in the United States. Lengthening the road tour also is planned.

**SISTER OF SOLDIER SUES U. S.
ON \$10,000 WAR RISK POLICY**

Government Alleges Man Who Killed Himself Had Been Discharged From the Army.

The United States Government is made defendant in a \$10,000 damage suit filed yesterday in the Federal Court in East St. Louis by Mrs. Rosa Morik of Ashler, Ill.—alleges that a \$10,000 war risk insurance policy, issued to her brother, John Frank Morik, who killed himself by taking carbolic acid at Camp Grant April 17, 1918, has not been paid to her as beneficiary.

The War Department contends, according to correspondence it has had with the office of the District Attorney in East St. Louis, that Morik was discharged from the army two months before he ended his life. The record of the discharge is lacking. At the time he took his life Morik was being treated for mental derangement, resulting from wounds received in service.

Mrs. Carmen Obregon Dies. LOS ANGELES, Cal., June 24.—Mrs. Carmen Obregon, said to be the sister-in-law of President Obregon, died here last night.

FIRST PUBLIC APPEARANCE OF THE LATE RUSSIAN CZAR'S MOTHER
Sole survivor of her family, who were murdered by Bolsheviks, the Dowager Czarina has lived in absolute retirement since the great tragedy. A few days ago, however, she appeared in England to attend the wedding of her grand-niece, Lady Mary Cambridge. Left to right: King George, his mother, Queen Alexandra; her sister, the Dowager Czarina, and the Queen.

A NOTABLE LONDON WEDDING
Lady Mary Cambridge, niece of the Queen, is married to the Marquis of Worcester. Here is the bridal party. In front are Lady Rosemary Eliot, Lady May Cambridge, the bride, Lady Cathleen Crichton and Lady Constance Stanley. Rear: Lady Diana Somerset, the Marquis of Worcester, Viscount Molyneux and Miss Betty Harford.

AGAIN A TYPICAL SCENE ON NEW YORK'S WATERFRONT

Unloading liquor from ships arriving from Europe, but this time the prohibition enforcement officers are in charge of the job and the liquor is being seized from stores taken aboard in Europe to be used for return voyages. Test cases will follow this action, to determine whether European vessels have a right, under international law, to bring liquor into our ports sealed for use of their passengers on return voyages.

SUGGESTIONS FROM PARIS

Left: Summer creations at Paris races—a light suit of embroidered on coat and skirt, with very wide sleeves and very tight skirt. Long black sash pleated on left side with tight turban to match.

Right: Veritably "vampish" is this big French hat of soft yellow crepe de chine, trimmed with a huge "touffo" of black tulle which comes through and wraps about the neck.

The Need of Every Girl

By SOPHIE IRENE LOEB.

A MOTHER with three daughters was bemoaning her fate—how much she is in debt because of their extravagances and how she is at her wit's end to know just what to do.

It seems that this family was in affluent circumstances; in fact, quite wealthy. The girls had gone to boarding school and had the wherewithal to do as they pleased, the mother and father indulging their every behest.

The school which these girls attended taught them mainly how to enter a drawing room, what to do when visiting friends and how to conduct one's self on various occasions, etc.—in short, how to be socially lady-like.

When the father died, the family found itself with the fortune depleted. Woe unto this family! These girls with their acquired tastes wanted them satisfied. They did not seem to realize that the goose that had laid the golden eggs was gone, and they kept worrying their mother to do this, that and the other thing.

Many a time when they wanted to go to social functions and in order to keep up appearances the mother had to sell some fine pieces of silver—the same old story. And now it seems there is not much more left with which to part and there are the three girls on her hands with all their crying, whining needs.

It has never occurred to these young women that one way out of this situation is to get jobs and save their mother suffering and sorrow as well.

Such girls will doubtless find some men who are willing to exchange money bags for "a good family." They will likely then bring up children and send them in the same path that they traveled themselves.

All of which is to say that the main fault was with the mother herself. It makes no difference how wealthy one is, every girl should be taught how to earn her own living if necessary. This is preached about a great deal, but not as often practiced.

Time changes many things and no

one can ever know when Dame Fortune will turn her back on you and you are left to shift for yourself.

The safe thing to do is to be in a position to help yourself. Every girl should know some trade or profession. I know a young woman whose father was very rich indeed, and who for pleasure learned how to be a stenographer and a typist in order to help her father when they went away for the summer.

This girl afterward found herself in destitute circumstances, having married a ne'er-do-well husband, and she was forced to support herself and her child. Many a time this woman told me how happy she was that she did not have to seek aid from rich relatives who might make her feel she was an object of charity.

It is bad enough not to know how to make your own living, but to try to live even beyond your means or on those of somebody else is a harrowing existence indeed.

Every girl can learn something, something for which she will be best fitted to make her own way in the world when it is necessary, and the mother who does not insist upon it usually pays for it later, as this mother, the subject of my article, is now doing.

WHITE COOKIES

ONE cup butter and two cups of sugar creamed, three eggs beaten, nutmeg flavor, two teaspoons baking powder, flour to mix soft. Put a raisin on top of each cookie, and bake in a hot oven.

Early and Wise Care to Cure Any Nervous Trouble

By ROYAL S. COPELAND, M. D.

United States Senator from New York
Former Commissioner of Health, New York City

WORSE even than death is the lingering misery of a hopeless disease. When that disease attacks the nerves or brain, presided over by the delicate structures of the nervous system, the condition may become a living death. Then to awaken after years of suffering to find that cure was possible is simply heartbreaking.

Last year's visit of Prof. Lorens brought to my attention the fact that in the city of New York are 35,000 crippled children. This is bad enough, but to know that hundreds of these cripples were curable and did not know it was enough to make angels weep.

The terrible thing about popular ignorance of medical matters is that needless suffering is permitted, curable conditions are neglected and diseases easily cured in the beginning drift into hopeless incurability. In every community there are multitudes of persons who are suffering from what they call "nervous pains." They are conscious of lowered capacity for work. It is a common experience for a man to be in mental agony over the probability of losing his job, because of his failure to keep up the pace.

All such persons need wise advice, or else serious mental disturbance may overtake them.

It is not adults alone who are afflicted with nervous troubles requiring treatment. Willful children of violent temper, children

who have persistent headaches, night terrors and twitching of the muscles, and children who lie and steal—all these are children who may become public charges if they are not properly handled in the beginning of their trouble.

Unfortunately, too many times the nervous patient of the type I have described is not taken seriously by doctor or family. As a matter of fact, whether adult or child, the victim of any one of these nervous disabilities requires the expert supervision of specialists in this line.

Successful treatment means more than relief from any acute illness—it means escape from lifelong suffering and mental disturbances. On this account it is essential to get early and well-directed treatment. Then there is every prospect of relief.

The Anti-Flirt Society has been formed in Dallas, Tex., for the purpose of creating sentiment opposed to flirting in all its various forms.

Why Keep Air Out of Ice Cream?

When the housewife discovers to her sorrow the spoiled jar of fruit on her pantry shelf she knows that air, food's greatest enemy, got in.

Every housewife knows that if she lets air into her preserved or canned fruit it will spoil. So when putting up fruit she fills the jars to the top, then sterilizes them to exclude every last tiny bubble of air and screws down the tops tightly with rubber rings to prevent air getting in.

Prof. W. Paul Heath, a scientist who has devoted his life to the sanitation of food products, has evolved a new process for manufacturing ice cream.

Ice cream is made easy to eat by mixing with it, during the freezing period, a volume of air. If you examined ice cream through a microscope you would detect an infinity of tiny air bubbles all through the texture.

Prof. Heath discovered a process for driving out the air in making ice cream and substituting carbon dioxide, a sterile atmosphere, one hundred times purer than mountain air. The process is called Heathization. Ice cream that is Heathized is super-pure because there is no air in it.

Give the kiddies all the Larmore's Ice Cream, Heathized, they want. It is an ideal food. We make our ice cream from the best cream, richest in those mysterious vitamins, the growing and health elements of food. Heathized Ice Cream will make their young bodies grow strong and ruddy with health. A dish of good ice cream is equivalent to a meal.

Be sure you call for Larmore's Ice Cream, Heathized. If your dealer hasn't it, insist that he get it for you.

Healthful because it's **HEATHIZED**

No king has ever had a finer bed than you can own today

Simmons is proud of that fact—proud to be the means of bringing such luxurious and life-prolonging comfort within the reach and buying power of millions of Americans.

For the finest sleep unit Simmons produces—no better mattress and spring are made anywhere—you need pay only three cents a night for their years of service. A small price for the flooding energy and vigor that make life longer and better worth the living.

Take ten minutes tonight to study the mattress and spring you sleep on. Then go to your furniture dealer's and examine the wide range of Simmons springs and mattresses at prices fitting any pocketbook. Compare them. Judge whether health, energy and success are not worth the cost of Simmons sleep comfort.

In MMR's Red Seal hair net

SOME years ago, MMR, designer of women's fashion accessories, decided that it was entirely possible to make a hair net that would give longer wear.

And this without sacrificing any of the invisible, dainty quality a net must have. Now in MMR's Red Seal hair net, you really have this greater wear and durability. The method MMR uses to attain it is not secret or mysterious. It is simply by giving zealous attention to every single detail of making. It is perfect workmanship!

OLDEN PEACOCK BLEACH CREAM

The Man on the Sandbox

YOU KNOW ME, AL.
WHEN a certain old man from Alaska
Said to William J. B., from Nebraska:
"Could a guy get a drink
On this ship, do you think?"
He replied: "I don't know, but Al Lasker."

DRY DOCKS.
HICKORY, dickery dock.
The ship had liquid stock:
The dock was dry
And so was I,
Hickory, dickery, dock.

Hickory, dockery, dick.
With the accent on the hic!
I drank all mine
At the three-mile line,
Hickory, dockery, dick.

MEET MR. STRONG.
GUY I hate with all my might
Is Julius Jeremiah Strong:
He's always absolutely right
And everybody else is wrong.

STOPPED.
There is a young fellow whose name is "Big Ben,"
Who swears he will never fight Dempsey again:
Though Ben was wound up and all set for a run,
He promptly stopped short when the champion struck one.

TIMELY TOPICS.
"Big Ben's" movements were so
slow that Dempsey just timed his
punch and made him look like a
wreck.

"Big Ben's" appearance didn't seem
to alarm Dempsey to any great ex-
tent. If his object was to wake
Dempsey up he did a good job.

ENOUGH IS SUFFICIENT.
The President is against Federal
control of the railroads. He prob-
ably feels that Uncle Sam has his
hands full with the shipping busi-
ness without monkeying with the
railroads.

During the war Uncle Sam
proved to the satisfaction of all and
everybody that the only place he can
run a railroad is into debt.

Of course Uncle might do better
time of peace by not diverting so
much of the revenue to his own

pocket. But he'll never make a
railroad man, not in ten thousand
years.

A GOOD OPENING.
If our respected Uncle feels that
he must have an outlet for his
transportation proclivities let him
tackle the street cars. By inaugu-
rating an open-door policy he might
find favor with the public.

He might also impress on the
conductors that ticket punches are
solely for the purpose of punching
transfers, not passengers.

"Two Youths Sentenced for
Robbing Saloon."
How can you rob something that
is not?

See where the Leviathan set a
new steamship speed record of 28.04
knots. Tie that if you can.

"A hedge between keeps friend-
ship green." But it won't keep the
neighbor's chickens out of your
garden.

BRING BACK BEER

Louis Congressman
Tour East Before Presen-
ting Amendment to
Volstead Act.

AYS HE CONSIDERS
THE TIME OPPORTU-

Sentiment Veering Rapidly
and Country Strongly
Favor of Relaxation
Dry Law, He Asserts.

WASHINGTON, June 27.—The
first definite sign of a change
in the attitude of the House of
Representatives toward the
Volstead Act was yesterday when
Representative Dyer, Republican of
Indiana, introduced a bill to
amend the act. Within the next few
weeks it is to travel through the
House and the Senate, and the
chance of shaping the final
amendment.

According to the present propo-
sition, the first proposed amend-
ment will be to the first defini-
tion of the word "beer" in the
act. This would be to increase the
allowance to 4 or 5 per cent
of alcohol. The Supreme Court has
held that this is to be in-
terpreted as the Eighteenth Amend-
ment, then the attack would
be on the amendment itself.

Dyer will first go to New
York to discuss the situation, though
he has not yet arranged his
schedule. Following this he will
visit other New England
states, and thereafter he expects to
visit several Eastern states in
Pennsylvania.

Time Considered Opportune
Asked what prompted the intro-
duction of the amendment, Dyer
said: "Western advocates of
the relaxation of the law had de-
termined to make the law more
flexible, especially in the
New York State repeal of
prohibition and similar en-
dorsements."

He is to represent
Pennsylvania, the
chairman of the
Volstead Committee, and he
will confer with Represen-
tatives of Massachusetts and
Republicans of like con-
viction.

Dyer will be the next man
to the Judiciary Committee
for the forthcoming session with
the purpose of particular signifi-
cance. While he made little men-
tion of the amendment, Dyer said of
prohibition: "It is a law that
has not allowed them with the
best that for the present po-
litical fight he preferred to
concentrate on beer, especially
the amendment was championing
the cause of putting beer on a
pre-Volstead basis."

He is optimistic over the
prospect for modification in the
law. He believes the
country will be so
favor of liberalization. He
thinks that there will be a
movement in Congress.

There is nothing incon-
sistent, between his
present and President Harding's
dry declarations in Den-
ver. "The President has to
enforce the law," Dyer re-
plied. "I couldn't very well say
that we are in favor of
amendment. I'm in favor of law
as it is, but I'm not in favor of the
law as it is."

The only course open
around the Volstead act
is to amend it. That prob-
ably is the only way to
save the country and serve
the bootlegging and
the liquor that is used in
the country at present. If the
law is not amended, it
violates the Eighteenth
Amendment, the next step will be
to amend the amendment.

ANALYSIS GIVES
Criminals Discover Criminal
Occupation by New Meth-
ods of the American Press.

LEON, France, June 27.—
The French government is
interested in the
methods of the
criminals, and M. Locard,
the Lyons detective bureau,
has been asked to
attend to this.
Recently he was confronted
with prisoners whose occupa-
tions were necessary to ascertain
the cause of the crime. He
placed the clothes of the
prisoners in a large paper bag, and
then he dried them and dis-
covered the cause of the crime.
The first was a man, another
was a woman, and the third a
child.
